## Marshall Hits Black Militant Lawbreakers

Race No Excuse For Outbreaks, Justice Says

NEW ORLEANS (AP) — The first Negro member of the U.S. Supreme Court says black militants who defy the law should be made to face the consequences.

"Anarchy is anarchy," Justice Thurgood Marshall said Sunday, "and it makes no difference who practices it, it is bad; it is punishable and it should be punished."

Marshall spoke at the centennial celebration of predominantly Negro Dillard University.

"You can't use color for an excuse for not doing what you should be doing," he declared.

"Race is not an excuse for not keeping your house properly, nor is race an excuse for not keeping your children in school, even though they may still be segregated."

Marshall said he realized that "so far as race problems and minority rights go, the problems are not yet solved and I have no idea when they will be, but there has been some progress."

"The seeds are here," he added. "But nothing will be settled with guns, firebombs or rocks. The country can't survive if the perpetrators go unpunished. It's that simple."

Urging Negroes to reject black militant leadership, Marshall said:

"We should stand up and say, 'Look, man, you do what you want to do and I'll do what I want to do. But don't tell me I have to do what you want me to do just because you said it.'"

The associate justice called for leadership through education, and said students demanding black studies and African culture should not discard other studies and cultures.

"You are not going to compete in the world until you have training exactly like everyone else, and, hopefully, better," he said. "Because when you're a Negro, you've got to be better."

## Nixon Fights Troop Cut Demands

By JOHN M. HIGHTOWER  
AP Special Correspondent

WASHINGTON (AP) — President Nixon, under increasing congressional pressure for a quick start in some U.S. troop withdrawals from Vietnam, evidently has begun a campaign to convince the public such a move is inadvisable at this time.

Following demands for some sort of troop pullback from two leading Republican senators late last week, top administration officials spent the weekend explaining Nixon's position.

In talks with reporters over the weekend, White House officials said the President has a carefully worked out strategy that he feels still shows sign of getting somewhere and would be disrupted by starting troop withdrawals now.

Nixon's argument against any immediate withdrawal rests primarily on these points, as defined by the White House officials:

1. There has been some progress in bargaining with the Communists at the Paris Peace talks, although not in terms of moving toward agreement on ending the war.

2. Nixon is planning some new moves with respect to Vietnam which he will take when he considers the time is right.

3. South Vietnam has been gaining steadily in both military and political strength for months now and its capacity to assume more of the war later will allow Nixon to withdraw some U.S. troops in the months ahead if he chooses to do so. He has no deadline, however, for withdrawal.

Secretary of Defense Melvin R. Laird also outlined the administration's position for a cutback in the American fighting force in a Saturday news conference at Warrenton, Va.

He said if any of these three positions are met then a withdrawal could begin:

1. Agreement on mutual withdrawal of U.S. and North Vietnamese troops.

2. Sufficient improvement of South Vietnamese forces so they can take over a major part of the fighting.

3. The level of Viet Cong and North Vietnamese activity is "substantially reduced" in South Vietnam.

Until Saturday, Laird had always declined to discuss the conditions for troop withdrawal.

als. But his outlining of the points plus the weekend sessions the White House officials had with newsmen indicated Nixon was concerned with the public effect of the recent demands for a quick beginning of the troop withdrawals.

Sen. Hugh Scott of Pennsylvania, the No. 2 Republican in the Senate, Friday called for the return home of a substantial block of U.S. troops as a means of inducing North Vietnam to begin serious bargaining in Paris.

A day earlier Sen. George Aiken of Vermont, top Republican on the Senate Foreign Relations Committee, had called on the Nixon administration to begin pulling forces out.

There have been other calls over the last several months for a troop cutback.

## Magazine Says Justice Slow Returning Fee

WASHINGTON (AP) — Justice Abe Fortas received a \$20,000 fee from the family of industrialist Louis E. Wolfson three months after he was seated on the Supreme Court and did not return the money until 11 months later, according to Life magazine.

Fortas confirmed Sunday that he was offered and considered a fee but flatly denied that he accepted or that he stepped in to help Wolfson, a former client who went to jail last month on a federal securities law conviction.

The justice said he returned the fee, "tendered" in 1966, "with my thanks." His statement, issued at the court after he had read an advance copy of the Life article, did not say how large the fee was or when he returned it.

Life's account was that the Wolfson Family Foundation, a tax-free charitable organization set up by Wolfson and his brothers, paid Fortas \$20,000 in January 1966, three months after he was sworn in as an associate justice.

The article, by William Lambert, said Fortas returned the money in December 1966, three months after the financial tycoon and his longtime business associate, Elkin Gerbert, had been indicted on charges of selling a large block of unregistered stock in a company Wolfson and Gerbert controlled.

Life said "whatever services he may or may not have rendered to the foundation, Justice Fortas' name was being dropped in strategic places by Wolfson and his business associate, Elkin Gerbert, in their effort to stay out of prison."

The Justice Department, meanwhile, said it "is aware of the contents of the article in Life magazine and currently (Continued on Page 2)

## Ohio's Weekend Road Toll Of 29 2nd-Worst In '69

By THE ASSOCIATED PRESS

It was a treacherous weekend on Ohio's highways, with motorists compiling the second worst traffic death toll of the year.

The Associated Press counted 29 dead on the state's roadways from 6 p.m. Friday until midnight Sunday. The year's worst

toll was 31 on the weekend of March 29-30.

The weekend count included five multiple-fatality accidents that took 12 lives.

Some other weekend traffic statistics:

—Hamilton County was the most dangerous area, contributing six deaths to the toll.

—Three of the deaths were in two accidents that occurred in about the same area of Ohio 82 west of Warren.

—More than half of the victims were youths 19 or younger.

—Nearly half of the deaths occurred during the first 12 hours of the weekend period.

—Three of the victims were pedestrians.

—Nine of the accidents, accounting for 11 of the deaths, involved only one vehicle.

Among the dead:

**SATURDAY**  
NELSONVILLE — Steve Lysinger, 26, and his brother, Sidney, 18, both of Lancaster, in three-car smashup on U.S. 33 north of Nelsonville in Athens County. Sidney died of his injuries Sunday.

**CINCINNATI** — Kenneth Wolf, 16, Forest Park; Marvin Harrington, 18, and Danny Bolton, 17, both of Sharonville, when their car crashed into a tree in the Cincinnati suburb of Sharonville.

Kenneth McSorley, 16, Cincinnati, when the car in which he was riding left a city street and crashed into an embankment.

Margie Sexton, 34, Cincinnati, when her car went out of control in Newton near Cincinnati and slammed into a utility pole.

**TOLEDO** — Jean Fleckner, 46, Toledo, when her car plunged over an expressway bridge.

**DAYTON** — Charles Fulton Jr., 18, Germantown, Susan Elben, 18, Celina, and Danny Harrison, 23, Germantown, in two-car crash near Germantown southwest of Dayton.

**MOUNT GILEAD** — Herman Hardin, 17, and Roger Rogers, 18, both of Mount Gilead, when their car crashed off a county road near Marengo in Morrow County.

**CLEVELAND** — Laura Workman, 3, Chicago, struck by a car in Cleveland while there visiting relatives.

## Federal Diet Aid Falters

Program Short Of Expectations

WASHINGTON (AP) — An \$8.8 million federal program aimed at improving diets for nearly a quarter-million impoverished mothers and children is far behind schedule and 50 per cent below the target.

The program's intent is to supply a \$7.00 package of nutrients—iron-enriched cereal, fruit juice, canned meat—each month to malnourished families.

But, after six months, the program has reached less than 100,000 of the target figure of 225,000 mothers and children.

However, the Nixon administration will continue to press the project which was initiated by the Johnson administration, along with other federal food programs, say Agriculture Department officials. The administration has asked for \$15 million increase in the department's food program budget overall.

The problem centers on poor federal-local cooperation and little local awareness of what all department programs can and should do, spokesmen say. Without cooperation, little can be done, they add.

The Department hopes to cure some of the trouble with an educational campaign among labor unions, churches, business groups and universities.

Freeman said it is expected the department will make its original target for the special food packages sometime later this year. In 1970 the program is intended to reach a million mothers, infants and children up to the age of six years. The cost estimate for this level is \$140 million a year.

## U.S. Command Keeps B52 Raid Results From Press

SAIGON (AP) — The U.S. Command is withholding reports of damage the B52 bombers are inflicting in their campaign along the Cambodian border, the heaviest of the Vietnam war.

About 300 of the big bombers have rained \$18 million worth of bombs along the frontier in the past two weeks, but there has been no official announcement of any results.

"We have no bomb damage assessment to report," the U.S. briefing officer says each day.

Informants said U.S. forces are constantly assessing the B52 strikes, but information officers for the U.S. Command have been instructed not to discuss damage assessment. The official line is that disclosure of such information would compromise American methods of gathering intelligence.

Some informants are skeptical, however. They said one reason for the official silence is that the U.S. Command fears an unfavorable public reaction to the skimpy results confirmable in relation to the money spent.

"We found some enemy bodies, said one officer, "at least four or five here and there."

But Gen. Creighton W. Abrams, commander of U.S. forces in Vietnam, and the Strategic Air Command consider the B52s a vital weapon in the war.

Officers say the huge bombers harass enemy troops, deny them sanctuaries, keep them on the run and prevent them from getting organized for an offensive.

"Harassment of troops is our biggest accomplishment," said one B52 officer. "We don't let them get organized."

Three North Vietnamese and Viet Cong divisions are the primary targets in the current campaign. The raids have struck at base camps in War Zone C, including bunker complexes, trenches and stockpiles of munitions and other supplies.

"We're not able to show you enemy bodies killed by the B52s," said one infantry officer. "But they've denied refuge to enemy troops in areas where you'd have to go in with ground troops and suffer men killed and wounded."

Four more B52 raids in War Zone C were reported today. Twenty-five Stratofortresses dumped 750 tons of bombs on enemy bunker complexes and storage areas, the U.S. Command reported.

A ground clash also was reported in War Zone C, 65 miles northwest of Saigon.

## Leatherwood Named To Naval Academy

MARK LEATHERWOOD

Mark Leatherwood, 18, son of Mr. and Mrs. Gail Leatherwood of Ashville, has been accepted by the United States Naval Academy at Annapolis, Md.

Leatherwood's appointment was announced Monday by Congressman Chalmers P. Wylie. He will report to the academy June 30.

The Teays Valley senior is a member of the school golf and football teams. He was also a member of the Teays Valley Honor Society.

The new appointee recently won the local Elks Youth Leadership Award for 1969.

Jobless Rate Up During April

WASHINGTON (AP) — The nation's unemployment rate edged up to 3.5 per cent last month and the recent rapid growth in employment slowed down, the Labor Department reported today.

"You can see the slowdown in all the major industries," said Asst. Commissioner Harold Goldstein of the Bureau of Labor Statistics.

The rise in the jobless rate was one-tenth of one per cent above March. Most of the increase was among women and teenagers, the bureau said.

FBI agents in Tampa Sunday arrested John Carleton Kivlen, 42, unemployed and address unknown. He was jailed in lieu of \$25,000 bond on a charge of attempting to commit aircraft piracy aboard an airliner in flight.

Kivlen, whose last known address was San Diego, Calif., was removed from a Los Angeles flight. FBI agents said he was not armed.

Stewardess Carol Lee Migon, 23, said, "He asked me, 'Have you ever been to Havana?' and I said, 'No' and walked away. He kept asking for coffee."

"Then he asked for another cup of coffee and another stewardess, Nancy Sylvester, served him. He said 'Would you ask the captain to take the plane to Cuba?'"

At that point, Miss Migon said, she and Miss Sylvester informed the pilot. After the plane, carrying 65 passengers, made its scheduled stop in Tampa, it continued to Miami. Other passengers were unaware of the incident.

Support Our Youth

AN EDITORIAL

Don't shortchange our youth. Vote yes for both the 9.3 mill renewal levy and for the 6.7 new levy for operation of Circleville Schools.

The 9.3 renewal levy is a combination of three small levies. These levies are presently a part of the total operating millage for city schools. The levy is proposed in one package to eliminate the costs of future elections.

The 6.7 additional mills are needed to insure the continued operation of the schools at or above the new minimum standards set by the state department of education.

Nobody likes to pay more taxes, but the need for education in our modern technological world is far greater than it was a few short years ago.

The youth of today are the leaders of tomorrow. Prepare them for their future by guaranteeing them a better education.

## Price-Fixing Plumbing Firms Face Suits

WASHINGTON (AP) — Some of the nation's largest makers of plumbing fixtures face the possible loss of billions of dollars from damage suits by customers who bought their equipment at what a federal court jury found were illegally fixed prices.

Nearly every state and numerous cities already have filed suits seeking treble damages against the three firms convicted of criminal price fixing last week and 12 other companies who earlier pleaded no contest to the charges, according to a

Justice Department official.

Besides the state and local governments, other major purchasers of plumbing fixtures—building contractors, and even individual homeowners—are expected to file suits, the official added.

Under federal law, those found guilty of criminal violations of antitrust acts are liable, if convicted in subsequent civil suits, for treble damages.

The prospect for the mammoth damages arose Friday when a federal jury in Pittsburgh found the Borg Warner

Corp., of Chicago; American Standard Corp., New York; and the Kohler Corp., Kohler, Wis., guilty of illegally raising and pre-setting the price for bathtubs and other bathroom fixtures.

The 15 companies and eight officials were accused in federal indictments Oct. 6, 1966 with fixing the prices on all fixtures they sold between September 1962 and 1966.

The government said the total sales amounted to \$1 billion or 38 per cent of the enameled cast iron plumbing fixtures and 80

per cent of the vitreous china plumbing fixtures sold in this country during the period.

The guilty verdict was returned Friday, and U.S. Dist. Court Judge Louis Rosenberg ordered a pre-sentencing investigation before setting penalties.

Rosenberg levied fines totaling \$370,000 and imposed jail terms on four executives—the other got probation—when 12 other companies and five individuals entered no contest pleas last year.

The action resulted in more than 1,300 suits from private utilities and public power com-

panies seeking treble damages. Other firms named in the original indictments included Wallace-Murray Corp., New York City; Universal-Rundle Corp., New Castle, Pa.; Rheem Manufacturing Co., New York City; Briggs Manufacturing Co., Warren, Mich.; Gerber Plumbing Fixtures Corp., Chicago; Ogden Corp., New York City; Mansfield Sanitary Inc., Perryville, Ohio; Peerless Pottery Inc., Evansville, Ind.; Kilgore Ceramics Corp., Kilgore, Tex.; Lawndale Industries Inc., Aurora, Ill.; and Georgia Sanitary Pottery Inc., Atlanta, Ga.

## 'Reparations' For Blacks Demanded

NEW YORK (AP) — A black militant interrupted Communion service at Riverside Church Sunday to demand massive reparations for what he said were past injustices to black people.

When James Forman stepped to the altar area of the church, the Rev. Ernest T. Campbell left the altar. The organizer drowned out Forman, but he waited out the hymn and started to read out his demands.

Many of the 1,300 members of the congregation followed the Rev. Mr. Campbell from the church, but about 500 remained to hear Forman.

Forman, an officer of the Student Nonviolent Coordinating Committee, said he was director of the International Black Development Conference.

"Six million Jews were killed in Germany and Israel is still getting reparations," he said. "Fifty million blacks died in slavery and the black people have been paid nothing."

Forman demanded 60 per cent of the church's income from stocks and real estate, 12 hours daily use of the church radio station and use of other church facilities. Leaning on a cane and flanked by six bodyguards, he said Riverside, an interdenominational church, had been singled out because it was near Harlem and was heavily endowed by John D. Rockefeller Jr.

Nixon's argument against any immediate withdrawal rests primarily on these points, as defined by the White House officials:

1. There has been some progress in bargaining with the Communists at the Paris Peace talks, although not in terms of moving toward agreement on ending the war.

2. Nixon is planning some new moves with respect to Vietnam which he will take when he considers the time is right.

3. South Vietnam has been gaining steadily in both military and political strength for months now and its capacity to assume more of the war later will allow Nixon to withdraw some U.S. troops in the months ahead if he chooses to do so. He has no deadline, however, for withdrawal.

Secretary of Defense Melvin R. Laird also outlined the administration's position for a cutback in the American fighting force in a Saturday news conference at Warrenton, Va.

He said if any of these three positions are met then a withdrawal could begin:

1. Agreement on mutual withdrawal of U.S. and North Vietnamese troops.

2. Sufficient improvement of South Vietnamese forces so they can take over a major part of the fighting.

3. The level of Viet Cong and North Vietnamese activity is "substantially reduced" in South Vietnam.

Until Saturday, Laird had always declined to discuss the conditions for troop withdrawal.

als. But his outlining of the points plus the weekend sessions the White House officials had with newsmen indicated Nixon was concerned with the public effect of the recent demands for a quick beginning of the troop withdrawals.

Sen. Hugh Scott of Pennsylvania, the No. 2 Republican in the Senate, Friday called for the return home of a substantial block of U.S. troops as a means of inducing North Vietnam to begin serious bargaining in Paris.

A day earlier Sen. George Aiken of Vermont, top Republican on the Senate Foreign Relations Committee, had called on the Nixon administration to begin pulling forces out.

There have been other calls over the last several months for a troop cutback.

The justice said he returned the fee, "tendered" in 1966, "with my thanks." His statement, issued at the court after he had read an advance copy of the Life article, did not say how large the fee was or when he returned it.

Life's account was that the Wolfson Family Foundation, a tax-free charitable organization set up by Wolfson and his brothers, paid Fortas \$20,000 in January 1966, three months after he was sworn in as an associate justice.

The article, by William Lambert, said Fortas returned the money in December 1966, three months after the financial tycoon and his longtime business associate, Elkin Gerbert, had been indicted on charges of selling a large block of unregistered stock in a company Wolfson and Gerbert controlled.

Life said "whatever services he may or may not have rendered to the foundation, Justice Fortas' name was being dropped in strategic places by Wolfson and his business associate, Elkin Gerbert, in their effort to stay out of prison."

The Justice Department, meanwhile, said it "is aware of the contents of the article in Life magazine and currently (Continued on Page 2)

## Magazine Says Justice Slow Returning Fee

WASHINGTON (AP) — Justice Abe Fortas received a \$20,000 fee from the family of industrialist Louis E. Wolfson three months after he was seated on the Supreme Court and did not return the money until 11 months later, according to Life magazine.

Fortas confirmed Sunday that he was offered and considered a fee but flatly denied that he accepted or that he stepped in to help Wolfson, a former client who went to jail last month on a federal securities law conviction.

The justice said he returned the fee, "tendered" in 1966, "with my thanks." His statement, issued at the court after he had read an advance copy of the Life article, did not say how large the fee was or when he returned it.

## Ohio's Weekend Road Toll Of 29 2nd-Worst In '69

By THE ASSOCIATED PRESS

It was a treacherous weekend on Ohio's highways, with motorists compiling the second worst traffic death toll of the year.

The Associated Press counted 29 dead on the state's roadways from 6 p.m. Friday until midnight Sunday. The year's worst toll was 31 on the weekend of March 29-30.

The weekend count included five multiple-fatality accidents that took 12 lives.

Some other weekend traffic statistics:

—Hamilton County was the most dangerous area, contributing six deaths to the toll.

—Three of the deaths were in two accidents that occurred in about the same area of Ohio 82 west of Warren.

—More than half of the victims were youths 19 or younger.

—Nearly half of the deaths occurred during the first 12 hours of the weekend period.

—Three of the victims were pedestrians.

—Nine of the accidents, accounting for 11 of the deaths, involved only one vehicle.

Among the dead:

**SATURDAY**

**NELSONVILLE** — Steve Lysinger, 26, and his brother, Sidney, 18, both of Lancaster, in three-car smashup on U.S. 33 north of Nelsonville in Athens County. Sidney died of his injuries Sunday.

**CINCINNATI** — Kenneth Wolf, 16, Forest Park; Marvin Harrington, 18, and Danny Bolton, 17, both of Sharonville, when their car crashed into a tree in the Cincinnati suburb of Sharonville.

Kenneth McSorley, 16, Cincinnati, when the car in which he was riding left

## Stock List Holds Gain

NEW YORK (AP) — The stock market, despite some profit taking, continued higher today in active trading.

Brokers said the market's strong rally last week apparently was encouraging investors.

The Dow Jones industrial average at noon was up 1.40 at 958.57.

Gains led losses by nearly 450 issues.

Brokers said the market's performance was "a fairly good follow-through, considering last week's powerful advance."

They said the market probably "will continue upward over the short-term, although it may pause now and again to consolidate."

The Associated Press average of 60 stocks at noon was up .6 at 339.6, with industrials up 1.0, rails up .1, and utilities up .5.

British Petroleum led the active list on the American Stock Exchange, where 16 of the 20 most-active were higher, and 4 were lower. British Petroleum was up 3/4 at 19.

## Youth, City Start Clean-Up Activities

Area youth served as volunteers over the weekend and today to get Paint-Up, Clean-Up, Fix-Up Week off to a rousing start.

On Saturday, area 4-H Clubs cleaned up the litter from Berger Hospital grounds as part of the week's primary clean up project.

Today, the Circleville Junior High School Band paraded in the downtown area as a reminder that civic improvement week is underway. Girls from the SOS Club labored to clean door glass areas in downtown businesses and attach clean up week stickers to the doors.

City employees also toiled in a concerted effort early this morning to clean up city streets for the start of Clean Up Week.

THE day is also suggested as Paint Up Day around the county for any citizen who has painting or touch up brushwork to do after the winter wear and tear.

Paint Up, clean up, fix up week is a project of the Community Appearance Committee of the Chamber of Commerce.

"The week is an annual effort to foster civic pride by focusing attention on civic improvement," according to Community Appearance Chairman Bill Hall. The committee operates on the basis that group participation in improvements projects will help stimulate pride in Circleville year-round.

Members of the committee are: Hall, Jack Goode, Joe Smith, Bob Hemphier, Joe Jenkins, George Byrd, Ray Carroll, Dick Gerhardt and Doyle Spangler.

Tomorrow, Girl Scout Troop 117 will distribute waste baskets downtown and it will be locker and desk clean out day throughout city and county schools.

## Today In Washington

By THE ASSOCIATED PRESS WASHINGTON (AP) — Sen. "Project Breakthrough" to stimulate home building and easier mortgage conditions for trailer home owners have been announced by George Romney, Secretary of Housing and Urban Development.

Project Breakthrough "is a new Project. It goes beyond just technology. It gets into the question of the best use of land and tapping new sources of money," Romney said.

The plan will bring together governors, mayors and representatives from the building trades, builders, and industrial firms interested in housing, he said without elaborating further.

Romney appeared on the ABC program "Issues and Answers." The Nixon administration will push for 40-year, 90-per cent FHA mortgage insurance on trailer home sites Romney said. Presently, the FHA insures on a 15 year basis for 75 per cent of the cost.

Romney added, "I think that achieving a real breakthrough in housing, getting a lot of new housing for low and moderate income families—and other families too—is about the best way we can stimulate the overall improvement in our cities."

WASHINGTON (AP) — Sen. William Proxmire, D-Wis., said today he has nominated for a major public service award an Air Force official that revealed money troubles in the CSA transport program.

The senator said A. E. Fitzgerald deserves the award because he "made the first public disclosure of the \$2 billion cost

## Pleas Entered To Grand Jury Indictments

Arraignments were held Monday morning for most of the men indicted by the April term of the Pickaway County Grand Jury. Two men were sentenced at the arraignments.

Donald Bragg, Orient, and Charles Wallace, Route 4, entered pleas of guilty before Judge William Ammer to charges of failing to provide support for minor children.

The two men were placed on three year's probation.

William Morris, Roy Penwell and John Blevins, charged with possession of burglary tools, entered pleas of not guilty at their arraignment.

Also entering pleas of not guilty at the time of the arraignments were Leroy Diehl, Adelphi, on non-support; and Boro Haynes, for possession of burglary tools, larceny and breaking and entering.

Case of Francis Beers, charged with possession of burglary tools, grand larceny and breaking and entering, was continued.

The court also continued the case of Lawrence Hill, 164 Town St., charged with taking \$80 from Jenkins Sumoco Service Station Feb. 6.

Requests for counsel were made by Lee Smith, Columbus, charged with writing checks with insufficient funds; Keith Fletcher, Columbus, charged with breaking and entering plus grand larceny; William Bussard, charged with two counts of forgery; and Roy Osborne, charged with breaking and entering.

Several men indicted secretly have not yet been arrested and brought before the court for arraignment.

## Bullet Hits Ashville Area Man In Leg

A bullet wound hospitalized an Ashville area man who shot himself in the leg accidentally while horseback riding Sunday afternoon.

Taken to Berger Hospital for emergency treatment of the wound was Richard Jackson, 28, Route 1, Ashville.

The bullet had grazed his upper leg and entered the calf just below the knee. The slug left the leg near the shin.

Jackson told Pickaway County Sheriff's Deputy Warren Straley that he had been riding with friends on the Hedges farm near Hedges Chapel when he accidentally shot himself while returning the .22 caliber pistol to its holster.

He stated that he had been shooting the pistol prior to placing it back into the waist holster and shooting himself.

Richard Reisinger, Route 2, Williamsport, and Steve Fullen, Williamsport, who had been riding with Jackson, took him to the hospital after the accident.

## Fire Damages House Trailer

Fire caused \$150 damage to the house trailer of William Koerner, Route 1, Lockbourne, about 5:30 a.m. Saturday.

Koerner told a Pickaway County Sheriff's deputy that his wife had gotten up to put fuel in the furnace and light a fire. A short time afterwards he smelled smoke, he stated.

Upon investigation Koerner found that the roof around the furnace flue had caught fire.

The fire was put out by the Harrison Twp. Volunteer Fire Department.

## Magazine

(Continued from Page 1) has the matter under consideration."

Fortas' statement, issued two hours after he had driven to the court on an otherwise quiet Sunday, began: "I have not accepted any fee or emolument from Mr. Wolfson or the Wolfson Family Foundation or any related person or group."

Fortas went on to say he met Wolfson in 1965, before going on the Court, after a Wolfson company had retained his old law firm.

The Justice said the foundation offered the fee "in the hope that I would find time and could undertake, consistently with my court obligations, research functions, studies and writings connected with the work of the foundation."

He added: "Concluding that I could not undertake the assignment, I returned the fee with my thanks."

Fortas said that at no time since he became a justice did he give Wolfson or any of his family, associates, foundations or interests any legal advice or services.

The statement said the foundation is engaged in "significant

and commendable work" in the field of harmonious racial and religious relations.

Life's version said that Fortas flew down to Wolfson's horse-breeding farm near Ocala, Fla., in June 1966 and was his guest when the Securities and Exchange Commission's "long-feared investigation" finally came to public attention.

The magazine said "it is not easy to pin down the exact extent of the Wolfson-Fortas relationship, nor has Life uncovered evidence making possible a charge that Wolfson hired Fortas to fix his case."

Last year President Johnson nominated Fortas to succeed Earl Warren as Chief Justice. The Senate Judiciary Committee received testimony that while on the court Fortas had accepted \$15,000 to conduct a summer seminar at the American University law school.

Dear Abby: By Abigail Van Buren

Let Kids See Truth About Dope

DEAR ABBY: This writer is an ex-policewoman and knows that what you printed about marijuana and drugs are the straight facts.

I was recently asked, "What would YOU do if you found your son or daughter using marijuana?" My answer: "I would ask the chief of police to show my child a prisoner who was coming off narcotics, 'cold turkey'."

Secondly: "What would you do if you found your child using LSD?" My reply: "I would ask the judge to sentence my child to the state hospital, not as a patient, but to care for some of the teen-aged patients who are incapable of feeding themselves, or keeping themselves clean, but just lie there, and stare at the ceiling with unseeing eyes."

I believe that a picture is worth 10,000 words. Please accept my congratulation, Abby, on a fine letter.

Very sincerely yours,  
C.B. TUCSON, ARIZ.

DEAR ABBY: Your pitch about marijuana and drugs was one-sided. All pot heads don't necessarily wind up on the heavier stuff. I know something about this as I have been in the drug trade for a number of years, tho I have never been an addict, and wouldn't touch it with a 10-foot needle.

The idea that dope pushers are lurking around school grounds trying to sell dope to kids is ridiculous. It's not sold that way. It's sold strictly thru contacts. A guy would have to be out of his mind to approach a strange kid. The feds would be on his neck in 10 minutes.

Abby, if you really want to help kids, tell their PARENTS

that kids turn to dope because they've been put down, belittled and ignored. Kids prefer scorn to disapproval and being ignored. Parents who raise their children in a stable environment with love and understanding will never have to worry about drugs. I have seen what it does to people, and I wouldn't wish the habit on my worst enemy. And believe me I have plenty.

NO NAME OR TOWN PLEASE  
DEAR ABBY: I have had an almost abnormal fear of dope addiction ever since I was 17, and witnessed a display of depravity that will haunt me to my grave.

I saw a 19-year-old kid who needed a fix of dope so desperately, he CARRIED his 17-year-old sister into a room to have sex relations with a man. (She was too sick and weak to walk, so he carried her there.)

After major surgery I laid in agony rather than to take the needle offered to ease my pain. I told them to keep their dope, I'd rather be dead than end up a dope head. I know for a fact that some have become innocently addicted in this manner. God help them.

DEAR ABBY: I have had kids look at me with wide, innocent eyes and actually tell me that marijuana does less harm to the body than cigarette smoking! They say it gives them a "high" feeling and there is no hangover.

Well, as a drug addict I can tell you that first I got hooked on that "high" feeling I got from marijuana, then I wanted something even "higher."

BEEN THERE IN NEW MEXICO

DEAR ABBY: No one can tell me that marijuana is physically harmful. My 18-year-old son admitted he'd been smoking "grass" since he was 14! Today, he can't pour a glass of orange juice without spilling it all over the table. Also, his eyes, which once were clear and bright, are now chronically bloodshot. And he can't sit for 20 minutes without going to the bathroom.

I was also told I was making "too big a thing" out of it. I agree with you, you CAN'T make too big a thing out of it. Sock it to 'em, Abby!

HEARTSICK DAD IN L.A.  
DEAR ABBY: It is ironic that in your hysteric warnings you fail to mention the single legitimate argument against smoking "grass."

It is ILLEGAL, and the user is liable for ridiculously severe penalties, not to mention the record of a felony conviction in most states. Moreover, to knowingly and willfully break a law, any law — even once — makes it so much easier to break other laws in the future. The resulting disrespect for legitimate authority has become all too common of late.

Women Firemen Prove Worth

NEW SALEM, Mass. (AP) — The Town's volunteer fire department has a new look—five women members have been recruited.

The women had their first workout Friday, responding to an alarm for a grass fire. The fire truck was on the way within minutes of the alarm, driven by one of the women, and arrived at the fire just as the first men volunteers appeared.

Women Firemen Prove Worth

NEW SALEM, Mass. (AP) — The Town's volunteer fire department has a new look—five women members have been recruited.

Fire Chief Norman Cogswell signed on the women for a good reason. The men volunteers have jobs, and during the day-time it often takes them a long time to get to the station for a

fire truck and then go to the blaze. All five "firemen" live near the station.

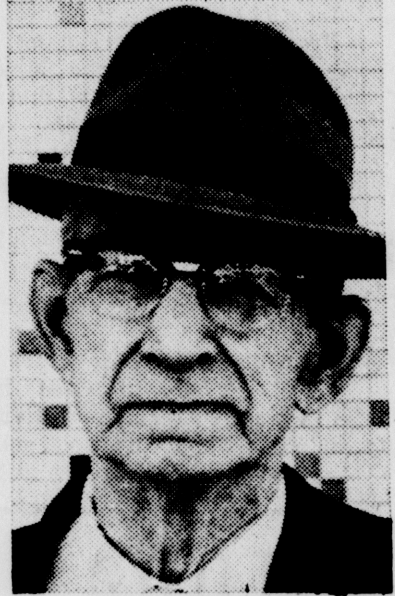

The women had their first workout Friday, responding to an alarm for a grass fire. The fire truck was on the way within minutes of the alarm, driven by one of the women, and arrived at the fire just as the first men volunteers appeared.

## Man-Made Quakes

For years the Atomic Energy Commission has been saying there is no danger of its underground atomic tests producing earthquakes. Now scientists, including some employed by the government, are less cocksure.

Several government scientists who appeared at the annual meeting of the American Geophysical Union admitted that several of the more than 20 tests held underground in 1968 did cause minor earthquakes. The two largest of these detonations, they said, caused thousands of small earth tremors, some of which occurred as far as 1,200 miles

from the test site.

The Boxcar explosion in Nevada one year ago, they said, caused a hard rock fracture which resulted in a "fault" almost three miles long. This same detonation caused a medium-sized earthquake about five miles from the test site.

Now the government is considering tests larger than any conducted before. Perhaps the attitude of the Atomic Energy Commission concerning the possible ill effects of its tests has changed in light of past experiences.

## According To Boyle

By HAL BOYLE

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

We live in shaky times. The world has a million earthquakes a year, but only one out of 10 is strong enough to be felt and only one of a thousand causes substantial damage.

Every 23 seconds a burglary is committed in America. Half of the nation's burglaries take place in small businesses, and

the daily loot averages \$1.2 million a day.

If you can afford to travel first class, what other way is there to go? On a recent visit to perform at Caesars Palace in Las Vegas, Richard Burton and Elizabeth Taylor arrived with a battalion of baggage pieces, a personal staff of eight people, four Pekingese dogs, exotic spices and 20 pounds of extra-salty white pistachio nuts.

How big is one of the 20 trillion red blood cells that keep you alive? Well, put side-by-side they would reach 116,000 miles, or nearly halfway to the moon. Spread out, they'd cover four-fifths of an acre, and if you put a cluster of 40 of them together they'd be the size of the period at the end of this sentence.

Incidentally, when a novelist writes of blood racing through his excited heroine's body, he's telling the truth. The blood can course through arteries at a speed of 40 miles an hour.

Quotable notables: "The art of acceptance is the art of making someone who has just done you a small favor wish that he might have done you a greater one." —Russell Lynes.

Littering is more than a nuisance—it's expensive. Every 12 minutes a U.S. home is destroyed by a fire starting in rubbish. The cleaning of debris from our streets costs us \$300 million in taxes a year.

Have you given up cigarette smoking lately? It is estimated that 1.5 million Americans quit the habit each month. Unfortunately, no figures are available on the number who start again the next day, week or month.

Pertinent: Mrs. Judy O'Reilly described babies as "angels whose wings grow shorter as their legs grow longer."

Mission perilous: Even omitting occasional dog bites, delivering the mail isn't a very safe job. A survey made the surprising discovery that the nation's 750,000 postal employees suffered half of all accidents to federal service personnel although they make up only a fourth of its membership.

Inflationary note: Caesars Palace, one of the luxury hotels at Las Vegas, has raised the top limit on individual dice and blackjack bets from \$500 to \$1,000 and the limit on baccarat bets from \$2,000 to \$4,000. And if the dealers know you, you can go even higher.

Worth remembering: "A fat wife and a large barn never did any man any harm."

Big problem of the aged: Money isn't everything but it seems to be more of a worry the older you grow. Government statistics show that three out of 10 Americans 65 and over dwell in poverty in contrast to only one in nine younger people who do.

Despite that depressing fact, more people are giving up the fight for the big dollar at an earlier age. In recent years more than half the people who have quit work and applied for social security benefits did so before reaching 65.

ferences of opinion as an excuse

for voting against school support. I don't believe we should let our children suffer for our reluctance to accept our financial responsibility. I realize that taxes are high — we are hit from all angles in various forms of taxes, but when we check what other communities are paying for the support of their schools, we aren't doing as much as we should.

A "yes" vote on both tax levies will be your vote of confidence in the future of the children of our community.

DALE F. DeLONG

Dear Editor:

I should like to reply to Mr. Fred Bowsher's recent letter regarding taxes — especially the school tax which the people of Circleville are being asked to renew and yes, even increase.

He mentioned common sense. A definition of common sense is good judgment. Now is it really good judgment to try to return the Circleville school system to a one room type affair, figuratively speaking, where not much more than the 3 R's were the standard curriculum? Is it good judgment to graduate hundreds of unskilled young people and have them within a few years end up on the welfare rolls because they haven't been able to get a job in our highly technical society? Is it good judgment to defeat these levies and lose the Ohio State foundation money paid to our schools? The answer to these questions should be obvious even to one with a minimum of education.

I do not like taxes any better than the next person, but I feel that the best investment anyone can make to insure the continued greatness of this country is to provide the best education possible to every child.

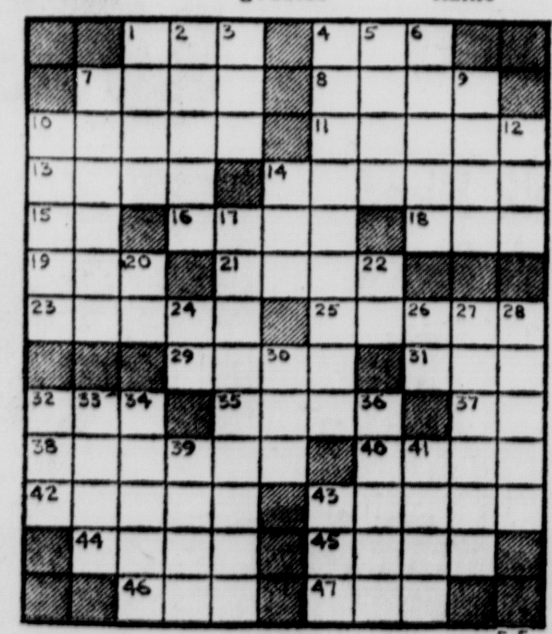

With all this in mind, my common sense tells me to vote yes for both levies.

## Speaking Of Your Health

By Lester L. Coleman, M.D.

My grandchild was born with a pigeon-shaped breast. He is now ten years old and seems to be embarrassed about being seen at the gym or at the beach. I write to you because I do not want my daughter to feel that I am barking in on a problem which does not seem to concern her. Can this lead to any dangerous lung conditions when he grows older?

Mrs. S. P. E., Wisconsin  
Dear Mrs. E.: The fear of open spaces is known as agoraphobia. It comes from the word agora, a market place and phobi, meaning fear. The fact that it is relatively rare, emotional disturbance is not nearly as important as is the fact that it is destructive to your family's structure and that it needs immediate psychological control. You will, I am sure, recall that your husband showed other neurotic tendencies before this. Now it is imperative that you speak to your doctor and to a psychiatrist if he is to be freed of this burden of fear.

The fact that the condition does not concern your daughter does not mean that she is overlooking the psychological problems that may arise in a young, sensitive boy. I am always astonished when, in a good relationship between parents and their children, there is an underlying feeling that grandparents are barging in on a family problem. I do not believe that it is presumptuous for you to be aware and to speak out your feelings about this condition. It seems that your daughter should welcome your solicitude and interest, rather than resent it.

The psychological damage to your grandson can be great if his embarrassment continues without some kind of support from his doctor or a psychologist. I have known children who have manipulated the entire structure of their lives in order to avoid being "seen" because of relatively insignificant abnormalities. There now are many exceedingly safe and successful operations which can be performed for the cosmetic relief of such malformations of the chest. From the health point of view, it is very easy to study the entire rib-cage, the heart and the lungs by X-ray to be sure there is no physical impairment.

My husband works in a factory three miles from our home. During the past four years it has become increasingly more difficult for

# Russians Don't Like Army

By JOHN CHAMBERLAIN

The Students for a Democratic Society may be a small minority on our campuses, but their campaign against the military is having a tremendous success. It won't be long before the R.O.T.C. (Reserve Officers Training Corps) is relegated to the cow colleges. The Army will continue to recruit its officers, but by appealing to non-Ivy League types through Officers Candidate Schools and the less affluent universities of the South and the Middle West. Thus the polarization of America will continue: the types that followed Eugene McCarthy in 1968 will be anti-military and, in the old sense of the word, anti-patriotic (though they would naturally deny it), while the Army will augment its officer cadres by a strong infusion of young men whose families would tend to be sympathetic to the law-and-order slogans of a George Wallace.

The SDS, which is working for polarization and a chaos that will enable Leftists to fish in troubled waters, won't care in the least that their program is bound to weaken the country as it faces external enemies. But what of those enemies? The strange fact — and the only mitigating factor that can give the U.S. any encouragement — is that other nations, even the most totalitarian, have their own equivalent of the SDS.

In the Soviet Union, as reported by Yuri Marin, an analyst for the Institute for the Study of the USSR in Munich, the Ministry of Defense has suddenly waked up to the fact that "there is an inverse ratio between the level of education and soldierly discipline." Thus Lieutenant Colonel P. Proshutinsky, developing the point of view of the Ministry of Defense, laments that the forty-six per cent of the young Soviet servicemen who have had secondary or higher education "now have more inquiring minds and tend to develop internal resistance to the strict regimentation of army life."

By the time they enter the army "many draftees have a ready formed individual opinions about life and politics on the basis of their own critical

analysis and information derived from such sources as foreign radio broadcasts." Marshal I. Konev has been thoroughly alarmed; he accuses many of the young soldiers of a "disloyal, pacifist disposition."

According to Marin's acute analysis of the between-the-lines meaning of the Soviet Ministry of Defense's complaints, the invasion of Czechoslovakia has not improved the morale of the educated forty-six per cent of the young draftees. Says Marin: "The troops who actually took part in the invasion could not help but notice the absence of a counter-revolutionaries in Czechoslovakia and of evidence of support from 'Western imperialism' and many of them, realizing that they had come not as liberators but as unbidden intruders, must now be more perplexed than ever."

In the U.S., the military, faced with the SDS anti-R.O.T.C. revolt, bends before the storm. A writer in "Army Digest" for April, 1969, stresses the "flexibility" of the R.O.T.C. program, suggesting that there need be no rigid stand on such matters as academic credit for R.O.T.C. courses and professorial status for military

personnel. The Soviets, however, react to the ferment among the forty-six per cent of the youth that has had secondary or higher education by issuing stern warnings of a coming crack-down. Says the USSR Ministry of Defense:

"Let none of these young men think that senior comrades, who have passed through the most testing ordeals and through the furnace of the Civil and the Great Patriotic wars, are not keeping an eye on their actions and conduct." A crash program has been launched to indoctrinate the young, centering on those of pre-conscription age. Preparatory military instruction has been pushed down to the secondary schools, grades five through eight, where the students are required to form "technical groups, sections and teams for those aspects of spot having a military-technical application."

The U.S. may ultimately fall through leniency and an over-permissiveness; the USSR may fall through over-rigidity. But before there is any final reckoning, the chances for miscalculation in foreign policy have been greatly magnified both in Washington and in Moscow.

AMBASSADOR TO ARGENTINA—Mr. and Mrs. John Davis Lodge are all smiles in New York on learning that President Nixon has named him U.S. ambassador to Argentina. Lodge, 65, former actor, congressman, Connecticut governor and brother of Henry Cabot Lodge, succeeds Carter L. Burgess.

## Speaking Of Your Health

By Lester L. Coleman, M.D.

My grandchild was born with a pigeon-shaped breast. He is now ten years old and seems to be embarrassed about being seen at the gym or at the beach. I write to you because I do not want my daughter to feel that I am barging in on a problem which does not seem to concern her. Can this lead to any dangerous lung conditions when he grows older?

Mrs. P. W., Virginia  
Dear Mrs. W.: Let me immediately assure you that there is little or no chance of having any difficulty with his lungs if your grandson is now completely free of symptoms. Occasionally, in very severe cases of pigeon-breast or funnel-chest, its opposite, there may be some interference with proper respiration, especially after exercise. His good health now is an indication that his heart and lungs are not pressured or imposed on by this rather unusual malformation of the chest that occurs very infrequently at birth.

The fact that the condition does not concern your daughter does not mean that she is overlooking the psychological problems that may arise in a young, sensitive boy. I am always astonished when, in a good relationship between parents and their children, there is an underlying feeling that grandparents are barging in on a family problem. I do not believe that it is presumptuous for you to be aware and to speak out your feelings about this condition. It seems that your daughter should welcome your solicitude and interest, rather than resent it.

The psychological damage to your grandson can be great if his embarrassment continues without some kind of support from his doctor or a psychologist. I have known children who have manipulated the entire structure of their lives in order to avoid being "seen" because of relatively insignificant abnormalities. There now are many exceedingly safe and successful operations which can be performed for the cosmetic relief of such malformations of the chest. From the health point of view, it is very easy to study the entire rib-cage, the heart and the lungs by X-ray to be sure there is no physical impairment.

My husband works in a factory three miles from our home. During the past four years it has become increasingly more difficult for

By JOHN CHAMBERLAIN

The Students for a Democratic Society may be a small minority on our campuses, but their campaign against the military is having a tremendous success. It won't be long before the R.O.T.C. (Reserve Officers Training Corps) is relegated to the cow colleges. The Army will continue to recruit its officers, but by appealing to non-Ivy League types through Officers Candidate Schools and the less affluent universities of the South and the Middle West. Thus the polarization of America will continue: the types that followed Eugene McCarthy in 1968 will be anti-military and, in the old sense of the word, anti-patriotic (though they would naturally deny it), while the Army will augment its officer cadres by a strong infusion of young men whose families would tend to be sympathetic to the law-and-order slogans of a George Wallace.

The SDS, which is working for polarization and a chaos that will enable Leftists to fish in troubled waters, won't care in the least that their program is bound to weaken the country as it faces external enemies. But what of those enemies? The strange fact — and the only mitigating factor that can give the U.S. any encouragement — is that other nations, even the most totalitarian, have their own equivalent of the SDS.

In the Soviet Union, as reported by Yuri Marin, an analyst for the Institute for the Study of the USSR in Munich, the Ministry of Defense has suddenly waked up to the fact that "there is an inverse ratio between the level of education and soldierly discipline." Thus Lieutenant Colonel P. Proshutinsky, developing the point of view of the Ministry of Defense, laments that the forty-six per cent of the young Soviet servicemen who have had secondary or higher education "now have more inquiring minds and tend to develop internal resistance to the strict regimentation of army life."

By the time they enter the army "many draftees have already formed individual opinions about life and politics on the basis of their own critical

analysis and information derived from such sources as foreign radio broadcasts." Marshal I. Konev has been thoroughly alarmed; he accuses many of the young soldiers of a "disloyal, pacifist disposition."

According to Marin's acute analysis of the between-the-lines meaning of the Soviet Ministry of Defense's complaints, the invasion of Czechoslovakia has not improved the morale of the educated forty-six per cent of the young draftees. Says Marin: "The troops who actually took part in the invasion could not help but notice the absence of counter-revolutionaries in Czechoslovakia and of evidence of support from 'Western imperialism' and many of them, realizing that they had come not as liberators but as unbanned intruders, must now be more perplexed than ever."

In the U.S., the military, faced with the SDS anti-R.O.T.C. revolt, bends before the storm. A writer in "Army Digest" for April, 1969, stresses the "flexibility" of the R.O.T.C. program, suggesting that there need be no rigid stand on such matters as academic credit for R.O.T.C. courses and professorial status for military Moscow.

# Top Sailor Says Russians Building In Mediterranean

WASHINGTON (AP) — The U.S. chief of naval operations says that the Soviet Union has established a "presence which counts" in the Mediterranean where the United States maintains the 6th Fleet.

Adm. Thomas H. Moorer said Soviet naval forces are being supported by ocean tenders in Tunisia and Egypt, have been "dealing with the Algerians," and "now have a presence on the flank of NATO which it didn't have before."

"I'm confident the 6th Fleet can take care of itself quite

expeditiously if required to do so," Moorer told Pentagon newsmen. "But it is the Soviet presence which counts."

The admiral recently returned from a European trip during which he visited 6th Fleet units participating in a joint NATO exercise called Dawn Patrol in the Mediterranean.

He said U.S. units were watched closely by Soviet ships and aircraft which were "showing noteworthy curiosity" about the new carrier John F. Kennedy.

Moorer said Soviet-made Badger bombers flying out of Egypt passed over U.S. vessels, but as to whether they were manned by Soviet crews he would only call it a "possibility."

Moorer said he views the Soviet buildup in the Mediterranean as part of an over-all Soviet strategy to extend military as well as merchant sea power into all strategic areas of the world.

During the NATO exercise, he said, as many as 52 Soviet military ships plied the Mediterranean. The number is now down to 42. He said 200 other merchant ships now fly the flag in the Mediterranean, as well.

The Vietnam war effort, he said, has impaired the manpower readiness of the 6th fleet. Experienced officers have been pulled out of the Atlantic fleet and sent to naval units in the Pacific, getting recruits to replace them.

He expressed hope the Navy "will regain required readiness so far as personnel are concerned" in a few months.

### WSCS Of St. Paul Church Hears Convention Report

The Women's Society of Christian Service of the St. Paul United Methodist Church held its regular April meeting at the church with 19 members and guests present.

Guests were Mrs. Woodrow Dumm, Mrs. Charles Waidelich, and Mrs. Delmer Marshall, a former resident of the community, but now living in Mason, Ohio.

Mrs. Oakley Leist, in charge of the devotion and study period, began with two songs by the group, "This Is My Father's World" and "O For a Thousand Tongues." The Scripture reading was from Matthew with special emphasis on, "He went up into a mountain apart to pray." Christ has said, "I am the way, the truth, and the life," and "Follow me." The leader concluded by saying that as Christ went to the mountain to pray, so must we; and as He had compassion and love for the poor and afflicted, so must we.

The president, Miss Weta Leist, presided over the business meeting. The committee for spiritual growth arranged for each member to draw a name for a prayer partner, the committee on missionary education checked the

number of books being read and the committee on local church responsibility announced a flea market. The market will be May 10 and will offer such things as handmade aprons, cushions, rugs and pillow cases, as well as baked goods and used clothing.

The president announced an invitation for the St. Paul ladies and their families to attend the St. John Family Night on Tuesday, May 6. The Rev. Donald Seymour, a missionary to New Guinea, will be the guest speaker and show slides of his work there.

On April 23 - 24 Mrs. Cliff Hedges served as delegate to the WSCS Convention at the Burgess Avenue United Methodist Church, Columbus. Guest speakers at the convention were Dr. J. Edward Carothers of New York City, Mrs. D. Dwight Grove of Philadelphia, Pa., the first woman on the official board of the United Methodist Church and Mrs. Harry Zech, a missionary in Puerto Rico for 24 years. Mrs. Hedges reported it was a very interesting two-day program and recalls one quotation that especially impressed her, "We build up resistance to things in which we do not wish to be involved."

On Wednesday evening, 11 others of the Circleville area joined Mrs. Hedges for the three course dinner and the evening service. Those who attended were Mrs. Robert Dahl, Miss Lydia Delong, Mrs. Robert Ewing, Mrs. Emmitt Hinton, Mrs. Frances Huber, Mrs. D. A. Marshall, Mrs. Arthur Leist, Miss Weta Mae Leist, Mrs. Bern Shidaker, Miss Grace Dresbach and Miss Mildred Wertman.

After the business session, Mrs. Dahl and Mrs. Oakley Leist had a brief program. Refreshments were served by the April hostesses, Mrs. D. A. Marshall, Mrs. Bern Shidaker and Mildred Wertman. Spring colors of green and yellow were used for decorations in the dining room.

Hostesses for May will be Mrs. Frank Lands and Mrs. Ralph Delong.

**REBECCA RUFFNER**

Mrs. Mabel Ruffner, Lancaster, announces the engagement of her daughter, Rebecca Lee, to Jerry Lee Starkey, son of Mr. and Mrs. Jack Starkey, 336 Cedar Heights Road, Circleville.

Miss Ruffner, also the daughter of George Ruffner of Newark, is a graduate of Lancaster High School and is employed in the office of William Brooks-Godman Shoe Company, Lancaster.

A graduate of Circleville High School, Mr. Starkey is employed by the Circleville Publishing Company.

The wedding will be an event of July 26 in the First United Methodist Church, Lancaster.

### Deercreek Garden Club Meeting Held

The May meeting of Deercreek Garden Club was held recently in the home of Mrs. W. E. Gibson, Route 2, with Mrs. Dorsey Bumgarner serving as co-hostess.

Mrs. Ted Corcoran presided during the business session. The attendance response was garden duties for May. Members participated in a discussion of conservation as related to garden and wayside preservation and beautification.

Plans were made to cooperate with the June 5 meeting of the Council of Pickaway County Garden Clubs to be held in the Good Shepherd United Methodist Church with Logan Elm Club supervising.

"Romance of Weeds" was the program topic presented by Mrs. Paul Counts. She gave a word picture of plants that have many virtues even though recognized as weeds. To conclude, Mrs. Counts read the timely "Gardener's Prayer."

Refreshments were served by the hostesses to Mrs. Tom Carter, Mrs. Omer Lemmings, Mrs. Russell McDill, Mrs. Edna Newhouse, Mrs. Bertha Porter, Mrs. Roy Sampson, Mrs. Leora Sayre, Mrs. S. T. Schleich, Mrs. Phoebe Smiley, Miss Ilo Stevenson, Mrs. Walter Wright, Mrs. Corcoran and Mrs. Counts.

### Have Pleasing Parfaits If Perfection's Wanted

By ALICE DENHOFF

Since parfait is French for "perfection," this delicious dessert is aptly named. Satiny in texture, pretty in its varicolored layers, the parfait is as good to behold as it is to eat. There are comparatively simple parfaits, of course, but today I have suggestions for party type concoctions that are easy to make because of clever shortcuts and convenience items. So let's start off with this fine:

#### MOCHA PARFAIT

1 6-ounce pkg. (1 cup) semi-sweet chocolate morsels  
1-3 cup water  
1 tablespoon light corn syrup  
Dash salt  
2 egg whites  
1-4 cup sugar  
1 cup heavy cream  
1 tablespoon instant coffee  
1-4 cup light brown sugar, firmly packed  
1-8 teaspoon almond extract

Combine first 4 ingredients and heat in top of double boiler over hot (not boiling) water. Let cool approximately 10 minutes.

Beat egg whites until stiff but not dry. Add sugar gradually and beat until stiff and satiny. Fold egg white mixture into semi-sweet mixture. For the second layer, combine all ingredients, beating well. Spoon into 6 or 8 parfait or sherbet glasses, alternating layers of semisweet mixture and coffee mixture. Serve well chilled.

Rainbow Parfaits are varicolored, bright and delectable. They are not difficult to do, either, when prepared with unflavored gelatin and Swiss-style yogurt that result in a sweet-and-tangy flavor surprise. They can be made in a jiffy because the cooking time is but three minutes — the length of time required to dissolve the gelatin in liquid. The mixtures are chilled, still separate, until thick enough to mound. Then they are piled into glasses and chilled until serving time. The Yogurt flavor is a new parfait note.

#### RAINBOW PARFAIT

**Strawberry Layer**  
1 envelope unflavored gelatin  
1/2 cup cold water  
1/4 cup sugar  
1 cup (8 ounce container) Swiss-style strawberry yogurt  
3-4 cup cold water  
**Almond Layer**  
1 envelope unflavored gelatin  
1/2 cup each cold water and sugar  
1 cup (8 ounce container) Swiss-

### WSCS Of St. Paul Church Hears Convention Report

The Women's Society of Christian Service of the St. Paul United Methodist Church held its regular April meeting at the church with 19 members and guests present.

Guests were Mrs. Woodrow Dumm, Mrs. Charles Waidehich, and Mrs. Delmer Marshall, a former resident of the community, but now living in Mason, Ohio.

Mrs. Oakley Leist, in charge of the devotion and study period, began with two songs by the group, "This Is My Father's World" and "O For a Thousand Tongues." The Scripture reading was from Matthew with special emphasis on, "He went up into a mountain apart to pray." Christ has said, "I am the way, the truth, and the life," and "Follow me." The leader concluded by saying that as Christ went to the mountain to pray, so must we; and as He had compassion and love for the poor and afflicted, so must we.

The president, Miss Weta Leist, presided over the business meeting. The committee for spiritual growth arranged for each member to draw a name for a prayer partner, the committee on missionary education checked the

number of books being read and the committee on local church responsibility announced a flea market. The market will be May 10 and will offer such things as handmade aprons, cushions, rugs and pillow cases, as well as baked goods and used clothing.

The president announced an invitation for the St. Paul ladies and their families to attend the St. John Family Night on Tuesday, May 6. The Rev. Donald Seymour, a missionary to New Guinea, will be the guest speaker and show slides of his work there.

On April 23 - 24 Mrs. Cliff Hedges served as delegate to the WSCS Convention at the Burgess Avenue United Methodist Church, Columbus. Guest speakers at the convention were Dr. J. Edward Carothers of New York City, Mrs. D. Dwight Grove of Philadelphia, Pa., the first woman on the official board of the United Methodist Church and Mrs. Harry Zech, a missionary in Puerto Rico for 24 years. Mrs. Hedges reported it was a very interesting two-day program and recalls one quotation that especially impressed her, "We build up resistance to things in which we do not wish to be involved."

On Wednesday evening, 11 others of the Circleville area joined Mrs. Hedges for the three course dinner and the evening service. Those who attended were Mrs. Robert Dahl, Miss Lydia Delong, Mrs. Robert Ewing, Mrs. Emmitt Hinton, Mrs. Frances Huber, Mrs. D. A. Marshall, Mrs. Arthur Leist, Miss Weta Leist, Mrs. Bern Shidaker, Miss Grace Dresbach and Miss Mildred Wertman.

After the business session, Mrs. Dahl and Mrs. Oakley Leist had a brief program.

Refreshments were served by the April hostesses, Mrs. D. A. Marshall, Mrs. Bern Shidaker and Mildred Wertman. Spring colors of green and yellow were used for decorations in the dining room.

Hostesses for May will be Mrs. Frank Lands and Mrs. Ralph Delong.

The wedding will be an event of July 26 in the First United Methodist Church, Lancaster.

## Deercreek Garden Club Meeting Held

The May meeting of Deercreek Garden Club was held recently in the home of Mrs. W. E. Gibson, Route 2, with Mrs. Dorsey Bumgarner serving as co-hostess.

Mrs. Ted Corcoran presided during the business session. The attendance response was garden duties for May. Members participated in a discussion of conservation as related to garden and wayside preservation and beautification.

Plans were made to cooperate with the June 5 meeting of the Council of Pickaway County Garden Clubs to be held in the Good Shepherd United Methodist Church with Logan Elm Club supervising.

"Romance of Weeds" was the program topic presented by Mrs. Paul Counts. She gave a word picture of plants that have many virtues even though recognized as weeds. To conclude, Mrs. Counts read the timely "Gardener's Prayer."

Refreshments were served by the hostesses to Mrs. Tom Carter, Mrs. Omer Lemmings, Mrs. Russell McDill, Mrs. Edna Newhouse, Mrs. Bertha Porter, Mrs. Roy Sampson, Mrs. Leora Sayre, Mrs. S. T. Schleich, Mrs. Phoebe Smiley, Miss Flo Stevenson, Mrs. Walter Wright, Mrs. Corcoran and Mrs. Counts.

## Have Pleasing Parfaits If Perfection's Wanted

By ALICE DENHOFF

Since parfait is French for "perfection," this delicious dessert is aptly named. Satiny in texture, pretty in its varicolored layers, subtle in its blend of flavors, the parfait is as good to behold as it is to eat. There are comparatively simple parfaits, of course, but today I have suggestions for party type concoctions that are easy to make because of clever shortcuts and convenience items. So let's start off with this fine:

### MOCHA PARFAIT

1 6-ounce pkg. (1 cup) semi-sweet chocolate morsels  
1-3 cup water  
1 tablespoon light corn syrup  
Dash salt  
2 egg whites  
1-4 cup sugar  
1 cup heavy cream  
1 tablespoon instant coffee  
1-4 cup light brown sugar, firmly packed  
1-8 teaspoon almond extract

Combine first 4 ingredients and heat in top of double boiler over hot (not boiling) water. Let cool approximately 10 minutes.

Beat egg whites until stiff but not dry. Add sugar gradually and beat until stiff and satiny. Fold egg white mixture into semi-sweet mixture. For the second layer, combine all ingredients, beating well. Spoon into 6 or 8 parfait or sherbet glasses, alternating layers of semi-sweet mixture and coffee mixture. Serve well chilled.

Rainbow Parfaits are varicolored, bright and delectable. They are not difficult to do, either, when prepared with unflavored gelatin and Swiss-style yogurt that result in a sweet-and-tangy flavor surprise. They can be made in a jiffy because the cooking time is but three minutes — the length of time required to dissolve the gelatin in liquid. The mixtures are chilled, still separate, until thick enough to mound. Then they are piled into glasses and chilled until serving time. The Yogurt flavor is a new parfait note.

### RAINBOW PARFAIT

**Strawberry Layer**  
1 envelope unflavored gelatin  
1/2 cup cold water  
1/4 cup sugar  
1 cup (8 ounce container) Swiss-style strawberry yogurt  
3-4 cup cold water

**Almond Layer**  
1 envelope unflavored gelatin  
1/2 cup each cold water and sugar  
1 cup (8 ounce container) Swiss-

The song of the woodcock does not come from the bird's throat, but rather from its wings. It results from air vibrating through the three outer feathers on each wingtip.

style plain yogurt  
3-4 cup cold water  
1/2 teaspoon almond extract

**Lime Layer**  
1 envelope unflavored gelatin  
1/2 cup each cold water and sugar  
1 cup (8 ounce container) Swiss-style plain yogurt  
3-4 cup reconstituted frozen limeade concentrate

Prepare strawberry, almond and lime layers. For each one, sprinkle gelatin over 1/2 cup liquid in saucepan. Place over low heat; stir constantly until gelatin dissolves — 3 or 4 minutes. Remove from heat; add sugar and stir until dissolved. Stir in yogurt and 3-4 cup cold liquid. Add almond extract to the almond mixture. Add a few drops of green food coloring to the lime layer if you want a deeper green. Chill mixtures, stirring occasionally, until they are thickened and will mound or "pile up." Spoon strawberry mixture, then almond mixture and then the lime mixture into parfait glasses to make 3 layers. Chill until firm — about 2 hours.

Makes 8 servings of a pretty party special.

## Rain, Hail And Twisters Rake Texas

By THE ASSOCIATED PRESS

Torrential rains and howling winds fanned out over the Southwest and into the Mississippi Valley before dawn today after flinging twisters into the Texas prairie and bombarding cities with giant hailstones.

Golfball-size stones walloped Midland, Tex., and marbles of hail pelted Abilene.

Tornadoes struck near Goldsmith, 20 miles west of Midland; Crowell, 115 miles south-east of Childress near the Oklahoma line.

Rain began to fan out before dawn in a broad pattern over the western two-thirds of the nation, falling in the Great Basin, the southern Rockies, the Central Plains and the upper and lower Mississippi Valley.

Rainstorms also dotted parts of Florida and Virginia.

But up and down the West Coast and over the eastern third of the United States skies were mostly clear.

Temperatures at 2 a.m. ranged from 34 in Limestone, Maine, to 78 in Brownsville, Tex.

## New Destroyer Named After Aussie Leader

SAN PEDRO, Calif. (AP) — The Navy is equipping for duty the destroyer escort USS Harold E. Holt, named for the late Australian prime minister.

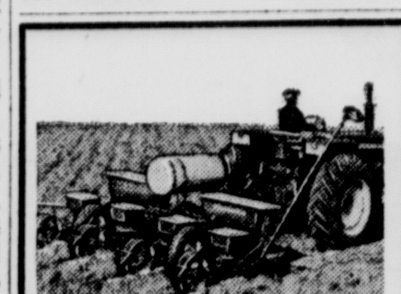

Holt died Dec. 17, 1967 when he was swept out to sea while swimming near Melbourne. The vessel was christened Saturday by his widow, Dame Zara Bate, now married to a member of the Australian Parliament. It is the first U.S. Navy ship named for a contemporary foreign leader.

Fitting out will take several months, the Navy said, with sea trials planned for several months after the ship is fully equipped.

The 4,000-ton ship will carry a complement of 17 officers and 213 men. It is designed for anti-submarine warfare.

## Politicians, College Heads Cross Swords On Outbreaks

By THE ASSOCIATED PRESS  
Nathan M. Pusey, president of Harvard University, says the solution to the nation's campus turmoil must come from the colleges themselves—"the students and faculty, primarily."

Meanwhile, evangelist Billy Graham and California Gov. Ronald Reagan said over the weekend that radical students were using Nazi tactics to disrupt education.

A group of black and Puerto Rican students continued today to hold half the campus of City College of New York. The Board of Higher Education, governing body of the City University, ordered the school opened today after a nine-day shutdown.

Pusey said Sunday on NBC Television's "Meet the Press" that college students and faculties will begin to solve the problem of campus turmoil only when they begin to see that "disrupting activity is something that can't be tolerated."

He said he still believes he was right in calling police to clear anti-ROTC demonstrators from a Harvard administration building. "The question was whether or not we could survive," he said.

Graham, in New York City, said student rebels are using the

university campus as "a training ground for guerrilla warfare" and are aiming at the "nonviolent overthrow of the United States government."

Reagan said in a television interview that the "great silent majority" of college students has "shown remarkable control in not striking back" at campus demonstrators.

Reagan said he saw no threat of a right-wing reaction to college disorders, but a threat from extremist protesters using what he called Nazi tactics to

disrupt education.

He was interviewed on the CBS program "Face the Nation."

The AAUP passed a resolution Saturday night expressing "grave concern" over "provocative statements by high federal officials which threaten 'professional militants' allegedly responsible for disruption with prosecution for conspiracy, and which employ indiscriminate and dangerous phrases such as 'ideological criminals' and 'new barbarians.'"

Saturday's program included the traditional luncheon sponsored by Management Staff for the agents who had written business fifty of the fifty-two weeks during 1968. Features of the afternoon management and sales program included introduction of a new Mobile Homeowner Policy and presentation of the company's new automation program.

President James W. Huffman presided at the Saturday night banquet which ended the two-day meeting. Ray Mon-salvatge, renowned speaker and writer, delivered the address.

Pusey said Sunday on NBC Television's "Meet the Press" that college students and faculties will begin to solve the problem of campus turmoil only when they begin to see that "disrupting activity is something that can't be tolerated."

He said he still believes he was right in calling police to clear anti-ROTC demonstrators from a Harvard administration building. "The question was whether or not we could survive," he said.

Graham, in New York City, said student rebels are using the

university campus as "a training ground for guerrilla warfare" and are aiming at the "nonviolent overthrow of the United States government."

Reagan said in a television interview that the "great silent majority" of college students has "shown remarkable control in not striking back" at campus demonstrators.

Reagan said he saw no threat of a right-wing reaction to college disorders, but a threat from extremist protesters using what he called Nazi tactics to

disrupt education.

He was interviewed on the CBS program "Face the Nation."

The AAUP passed a resolution Saturday night expressing "grave concern" over "provocative statements by high federal officials which threaten 'professional militants' allegedly responsible for disruption with prosecution for conspiracy, and which employ indiscriminate and dangerous phrases such as 'ideological criminals' and 'new barbarians.'"

Saturday's program included the traditional luncheon sponsored by Management Staff for the agents who had written business fifty of the fifty-two weeks during 1968. Features of the afternoon management and sales program included introduction of a new Mobile Homeowner Policy and presentation of the company's new automation program.

President James W. Huffman presided at the Saturday night banquet which ended the two-day meeting. Ray Mon-salvatge, renowned speaker and writer, delivered the address.

## Rain, Hail And Twisters Rake Texas

**By THE ASSOCIATED PRESS**

Torrential rains and howling winds fanned out over the Southwest and into the Mississippi Valley before dawn today after flinging twisters into the Texas prairie and bombarding cities with giant hailstones.

Golfball-size stones whalloped Midland, Tex., and marbles of hail pelted Abilene.

Tornadoes struck near Goldsmith, 20 miles west of Midland; Crowell, 115 miles southeast of Childress near the Oklahoma line.

Rain began to fan out before dawn in a broad pattern over the western two-thirds of the nation, falling in the Great Basin, the southern Rockies, the Central Plains and the upper and lower Mississippi Valley.

Rainstorms also dotted parts of Florida and Virginia.

But up and down the West Coast and over the eastern third of the United States skies were mostly clear.

Temperatures at 2 a.m. ranged from 34 in Limestone, Maine, to 78 in Brownsville, Tex.

## New Destroyer Named After Aussie Leader

**SAN PEDRO, Calif. (AP)** — The Navy is equipping for duty the destroyer escort USS Harold E. Holt, named for the late Australian prime minister.

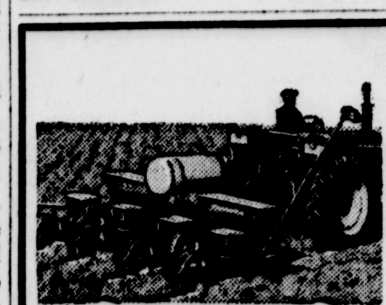

Holt died Dec. 17, 1967 when he was swept out to sea while swimming near Melbourne. The vessel was christened Saturday by his widow, Dame Zara Bate, now married to a member of the Australian Parliament. It is the first U.S. Navy ship named for a contemporary foreign leader.

Fitting out will take several months, the Navy said, with sea trials planned for several months after the ship is fully equipped.

The 4,000-ton ship will carry a complement of 17 officers and 213 men. It is designed for anti-submarine warfare.

## Open House Set At Lancaster OU Campus

An "Open House" is scheduled at the Lancaster Campus of Ohio University May 18, 1969 according to an announcement made today by Paul P. Mechling, acting director at the campus.

Bracee Hall will be open to the public during the hours of 1 to 5 p.m. and 6 to 8 p.m. The Lancaster Campus Chorus will present a concert in the auditorium at 8 p.m.

Mechling stated that visitors to the campus will have the opportunity to see many of the educational facilities available to the youth and adults of the community. Classrooms, the language and science laboratories, the student lounge, auditorium, library, art room and art gallery are some of the areas which can be seen on a tour of the building.

Members of the faculty and student body will be present to explain the various programs offered at the Lancaster Campus.

And the American Association of University Professors said "high federal officials" may be endangering academic freedom by making what it called provocative statements on campus disorders.

A group of black and Puerto Rican students continued today to hold half the campus of City College of New York. The Board of Higher Education, governing body of the City University, ordered the school opened today after a nine-day shutdown.

Sounds ridiculous, doesn't it?

But what if everybody in this country were to throw their hands up in despair and say they don't give a hoot.

Indeed, there would be no tomorrow.

But fortunately, Americans have a way of solving their problems.

And that's just what's going to happen in these troubled times. Simply because it's always been an American tradition.

Now, how can you, as one little ole citizen in this big, wide country of ours, be of any help?

Well, take a minute and think about a U.S. Savings Bond.

That's right, a U.S. Savings Bond.

No, it isn't an immediate remedy for all our ills. But it helps.

If everybody were to buy just one \$25.00 Savings Bond (cost \$18.75), your country would be stronger economically to wipe out some of those scars we've been sporting.

Of course, everybody would be helping themselves, too. If you were to sign up on a Bond purchase plan where you work or bank, you'd have quite a nice nest egg for yourself one of these days.

You'd have a lot more dollars in the kitty for things like college educations, that new home, or a secure retirement.

So think about a U.S. Savings Bond today.

And then go out and buy one. Tomorrow.

If they're lost, stolen, or destroyed, we replace 'em.

# Syrian Policy: Fight Israel, But Seek Peace

By ELIAS ANTAR  
Associated Press Writer  
DAMASCUS, Syria (AP) — Syria is beginning to shoot at Israel after almost two years of sitting on the sidelines of the Middle East conflict.  
But at the same time, in a paradox typical of the ruling Baath party, the government of President Nouruddin Atassi is showing increasing interest in a political settlement of the Arab-Israeli war.  
Since the six-day war of 1967, Syria has taken pains to sound more extremist than other Arab countries. It repeatedly called for a "war of popular libera-

## Ohio Demos Hold Meet, Eye Finances

COLUMBUS, Ohio (AP)—Top Ohio Democrats gathered in Columbus Saturday for an all-day secret strategy session to discuss what Ohio Democratic Chairman Eugene O'Grady called "things that have to be done."  
Attending the closed meeting were members of the Democratic executive committee, county chairmen, labor leaders and former contenders for office.  
According to some sources, finances was a major topic on the agenda. There have been reports that Ohio Democratic headquarters is facing a financial crisis in its day to day operations.  
Among those on hand was former Gov. Michael V. DiSalle, now an attorney in Washington. The former chief executive of Ohio sidestepped questions about discussions at the meeting, but did say he believed U.S. Sen. Stephen Young would seek a third term in office, at least for now.  
Young was not invited to the meeting.  
O'Grady said that John H. Glenn, former astronaut and also a potential contender in the 1970 gubernatorial race, had no representative "as such" at the meeting.

tion" against Israel but did nothing afterward.  
Syria's cease-fire line with Israel along the Golan Heights—at its nearest point about 28 miles from Damascus—has been embarrassingly quiet compared to the Jordan River or the Suez Canal. But political sources say this is changing.  
There have been six clashes with Israel in the past 12 days involving machine guns, mortars and artillery. More can be expected, informants say.  
Several fuses have set the Syrian cannons booming.  
"Al Fatah guerrillas and the Israeli air attack of last February are the two main reasons why you can expect more action along the border," one informant said. "The government used to prevent the guerrillas from operating against Israel from Syrian territory for fear of Israeli reprisals. But the Israelis bombed Syrian territory anyway."  
"Al Fatah quietly began setting up a large operations base on the Syrian side of the cease-fire line. About six weeks ago it pointed out to the government that it was rather shameful that Syria should put curbs on them while other countries such as

Jordan were giving them free rein."  
The Syrians claim to have shot down four Israeli planes in the February strike. Initially this was doubted, but independent observers have since con-

firmed that three Israeli planes went down in flames.  
Syria's armed forces, refurbished by the Soviet Union since the 1967 defeat, are feeling more feisty, and the army is now willing to test its strength against

the Israelis, the informants added.  
Restrictions on guerrilla operations also have been removed, and it is widely known the six recent clashes were sparked by guerrilla raids into Israeli-occu-

pied territory. One Israeli soldier was killed and another was wounded in the most recent raid Friday, sources here say.  
February's air raid, besides giving the army new confidence, also sparked a severe political crisis within the Baath party that partly relaxed the regime's iron-fisted rule. Since the shakeup began, about 120 politi-

cal prisoners have been released, arbitrary arrests of political opponents abolished and a new constitution proclaimed.  
The regime's reforms have improved its popularity at home and with other Arab governments. But there is still a certain coolness between Damascus and Moscow because the Syrians have rejected the idea of a political settlement despite Soviet urgings to fall in line with Jordan and Egypt.

Associated Press Writer  
DAMASCUS, Syria (AP) — Syria is beginning to shoot at Israel after almost two years of sitting on the sidelines of the Middle East conflict.

But at the same time, in a paradox typical of the ruling Baath party, the government of President Nureddin Atassi is showing increasing interest in a political settlement of the Arab-Israeli war.

Since the six-day war of 1967, Syria has taken pains to sound more extremist than other Arab countries. It repeatedly called for a "war of popular libera-

tion" against Israel but did nothing afterward.

Syria's cease-fire line with Israel along the Golan Heights—at its nearest point about 28 miles from Damascus—has been embarrassingly quiet compared to the Jordan River or the Suez Canal. But political sources say this is changing.

There have been six clashes with Israel in the past 12 days involving machine guns, mortars and artillery. More can be expected, informants say.

Several fuses have set the Syrian cannons booming.

"Al Fatah guerrillas and the Israeli air attack of last February are the two main reasons why you can expect more action along the border," one informant said. "The government used to prevent the guerrillas from operating against Israel from Syrian territory for fear of Israeli reprisals. But the Israelis bombed Syrian territory anyway."

"Al Fatah quietly began setting up a large operations base on the Syrian side of the cease-fire line. About six weeks ago it pointed out to the government that it was rather shameful that Syria should put curbs on them while other countries such as

Jordan were giving them free rein."

The Syrians claim to have shot down four Israeli planes in the February strike. Initially this was doubted, but independent observers have since confirmed that three Israeli planes went down in flames.

Syria's armed forces, refurbished by the Soviet Union since the 1967 defeat, are feeling more feisty, and the army is now willing to test its strength against

the Israelis, the informants added.

Restrictions on guerrilla operations also have been removed, and it is widely known the six recent clashes were sparked by guerrilla raids into Israeli-occupied territory. One Israeli soldier was killed and another was wounded in the most recent raid Friday, sources here say.

February's air raid, besides giving the army new confidence, also sparked a severe political crisis within the Baath party that partly relaxed the regime's iron-fisted rule. Since the shakeup began, about 120 politi-

cal prisoners have been released, arbitrary arrests of political opponents abolished and a new constitution proclaimed.

The regime's reforms have improved its popularity at home and with other Arab govern-

ments. But there is still a certain coolness between Damascus and Moscow because the Syrians have rejected the idea of a political settlement despite Soviet urgings to fall in line with Jordan and Egypt.

## Ohio Demos Hold Meet, Eye Finances

COLUMBUS, Ohio (AP)—Top Ohio Democrats gathered in Columbus Saturday for an all-day secret strategy session to discuss what Ohio Democratic Chairman Eugene O'Grady called "things that have to be done."

Attending the closed meeting were members of the Democratic executive committee, county chairmen, labor leaders and former contenders for office.

According to some sources, finances was a major topic on the agenda. There have been reports that Ohio Democratic headquarters is facing a financial crisis in its day to day operations.

Among those on hand was former Gov. Michael V. DiSalle, now an attorney in Washington. The former chief executive of Ohio sidestepped questions about discussions at the meeting, but did say he believed U.S. Sen. Stephen Young would seek a third term in office, at least for now.

Young was not invited to the meeting.

O'Grady said that John H. Glenn, former astronaut and also a potential contender in the 1970 gubernatorial race, had no representative "as such" at the meeting.

## Find Fraud In Welfare

COLUMBUS, Ohio (AP) — A five-month investigation of Franklin County welfare programs has turned up 92 cases of forgery and 87 cases of larceny by trick, according to State Auditor Roger Cloud.

Cloud reported his investigators also uncovered 1,000 cases of unresolved overpayment situations.

Cloud said that in every month included in his office's probe there were numerous cases of double payments for recipients who claimed they had not received a check. In nearly every case, the original check was ultimately cashed, he said.

The report said some of the double payments were caused by collusion between several recipients, outright falsehood and thefts from mailboxes.

But Cloud also blamed the county welfare department for processing replacement checks without full investigation of whether the person had actually failed to receive the check and for failing to update changes in mailing addresses of recipients.

## Pickaway Grange Report

### POMONA GRANGE

Nancy Fausnaugh of Nebraska Grange was accepted for membership and administered the obligation by Master Dorsey Bumgarner at the spring session of Pomona Grange. This was held May 2 at the Grange Building. Supervised by Mrs. Francis Furniss, home economics chairman, the members of Star Grange served as the host grange. Mrs. Herbert Hamill was the piano accompanist for ritualistic inclusions.

A representative of each grange gave a report-review of endeavors since the winter session.

Mrs. Paul Dawson, junior deputy, gave information concerning the new draperies in the building and recognized the committee responsible: Mrs. Judson Beougher, Mrs. John Dowler and Mrs. David Bolender. She thanked all who cooperated with the recent Town and Country Session and reminded all of the home economics contest at the summer meeting in August.

A contribution was sent to help with the beautification project at the state grange building.

John Dowler gave recent details of the Pomona Building Fund.

Resolutions of respect were read for Judson Beougher as

prepared by Hoyt Timmons, Harold Fisher and Mr. Dowler.

The secretary, Mrs. Dorsey Bumgarner, read an invitation for a tour-trip to the 193rd Annual National Meeting of Grange at Daytona Beach, Fla., in November.

"Notes and Anecdotes of Music" was the theme of the program as arranged by the lecturer, Leora Sayre. This was to support the theme for National Music Week — "Music Enriches Life" and to give recognition to mothers and mental health.

For mothers — Mrs. Frank Wharton of Nebraska Grange was proud to be recognized as the oldest mother and Mrs. Dawson of Star Grange, the youngest mother present. Mrs. Randolph Wolfe of Salt Creek Valley Grange was the mother present with the most children.

As a survey for musical talent, a "Subord-ette" demonstration contest was enjoyed for comparison between men and women, representatives from each grange. Volunteers for the woman's choir were Mrs. S. E. Beers, Mrs. Paul Dawson, Barbara McKenzie, Mrs. Dorsey Bumgarner, Mrs. Paul Kuhlwein, and Mrs. Homer Reber. The men's choir volunteers were S. E. Beers, Hoyt Timmons, Carl Bennett,

## Ohio Elks End Meeting

COLUMBUS, Ohio (AP) — Ohio Elks concluded Sunday a four-day state convention during which new officers were elected and a number of awards presented.

Columbus Mayor M. E. Senenbrenner was named Saturday night to the Elks Hall of Fame for "outstanding work" in community betterment and Americanism.

Carl S. Jackson of Van Wert received the Ohio Elk of the Year award for service and achievements in the fraternity.

Earlier in the evening, E. Paul Howard, a retail sales executive in Alliance, was elected state president, succeeding George B. Walker of Mentor as head of the 38,000-member group.

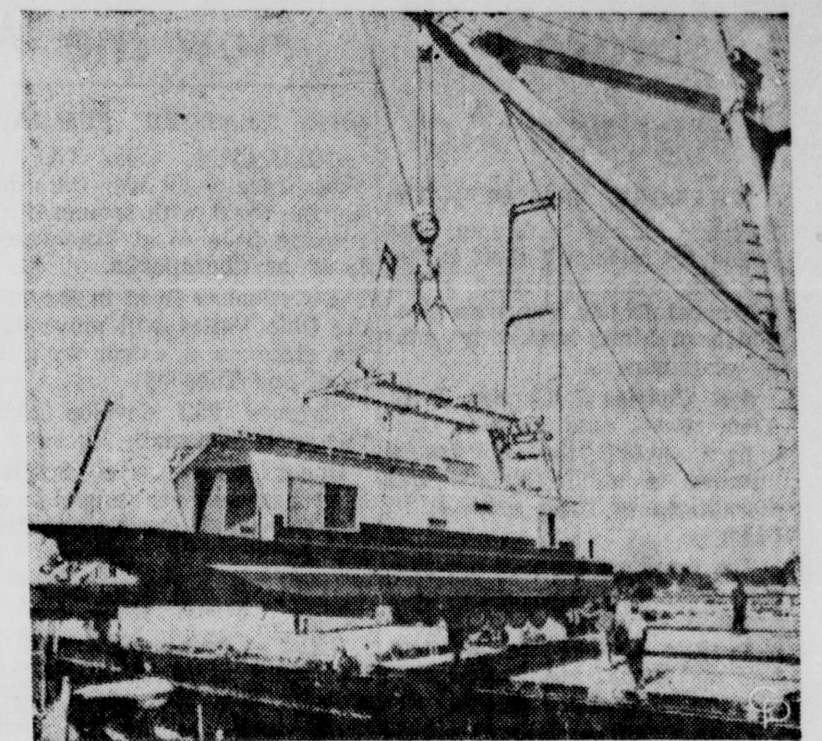

M. B. Letzelter of Steubenville was named first vice president; Sam Fitzsimmons of Van Wert, second vice president; Irving W. Davies of Lakewood, third vice president; F. H. Nizwonger of Dayton, state trustee, and Frank D. O'Connell of Marietta, state secretary-treasurer.

Dorsey Bumgarner, Harold Furniss and Ralph Fisher. The song used was "America."

All present cooperated in a quiz on music. The concluding highlight was presented by Jo Ann Brink of Knight Travel Service who sang, "Galway Bay," "You'll Never Walk Alone," "Irish Eyes are Smiling," "Come Every Mountain" and "God Bless America." The piano accompanist was Weta Mae Leist, a member of Washington Grange and secretary of Pickaway County Agriculture Extension Service.

A vote of thanks was extended Sar Grange for the evening's hospitality. The terminal social fellowship was "Happy Birthday" time for Mrs. Furniss.

Washington Grange will serve as host for the summer session to be held August 8.

## Views on Television

By CYNTHIA LOWRY

AP Television-Radio Writer

NEW YORK (AP) — There was a co-star without big billing on Sunday night's "H. Andrew Williams' Magic Lantern Show Company." It was the fellow who dreamed up those spectacular optical effects that were the attention-grabbing feature of the first part of the NBC special.

Andy Williams' programs, whether the old weekly series or his recent specials, invariably almost 100 per cent music. His final special of this season was no exception.

With some solid and diversified assistance from guests Aretha Franklin, Roger Miller, Sergio Mendes and Brasil '66, Wil-

liams pretty well covered the current musical waterfront. The range was from "The Spanish Flea" to "Little Green Apples" —there seems to be an unwritten rule that the latter must be sung once in every variety show.

But had it not been for these extraordinary camera tricks, it would have been just another of those handsome, tuneful and slick musical specials that a number of producers have learned to turn out.

The fanciest trick was setting up four or five small boxes against a black background and fitting each with performers singing—sometimes together.

At one point Williams was operating in four boxes, singing close harmony with himself, with a fifth Andy Williams at the bottom of the screen directing the unusual chorus.

Roger Miller rode a motorcycle from box to box. At one point, when all the guest stars were in boxes, it appeared by some cinematic legerdemain that Andy was climbing up the side of one aperture and even was able to jump across to the top of another.

All this was highly diverting and—fortunately—did not continue through the show. The principal disadvantage in using sophisticated motion picture tricks is that the average TV screen is too small. A hard close-up is still the most effective TV shot. This was used imaginatively, too, with a close shot of Roger Miller singing while in a corner of the screen a pair of dancers performed in slow motion.

The final "On Stage" drama of the season will be "The Skirts of Happy Chance," to be broadcast on NBC May 28. The original play by Albert Ruben is described as a comedy about people in an antipathy program. It will star William Shatner, late of "Star Trek."

## Seek Repeal Of State's Ferguson Act

COLUMBUS, Ohio (AP)—The Senate's minority leader has asked his research staff to begin this week preparing a bill to repeal Ohio's Ferguson Act, which prohibits strikes by public employees.

Sen. Charles J. Carney, D-33, Youngstown, said he was concerned about the increasing number of public strikes and disruptions of state services in Ohio.

The omnibus bill will set precise procedures for grievance negotiation, conciliation, mediation, fact finding and arbitration and would give public employees the right to strike.

It also will include a provision to allow the state, under certain conditions, to invoke an injunction to prohibit a strike for a certain length of time during a cooling off period.

Carney, former regional representative for the United Steelworkers Union, said public employees "ought to have the same rights" as those in private industry.

The Youngstown senator indicated that, although the legislature is Republican-controlled, his bill might have a chance of passage if public employee work

## Set Tests After Death Of Boy, 5

CLEVELAND, Ohio (AP) — Medical tests are expected to show definitely whether a suspected poisonous spider bite was the actual cause of the death of 5-year-old Todd Quenter of Amherst.

The boy was reported bitten by a brown recluse spider April 17, went into a coma at Babies and Childrens Hospital here April 20 and died Sunday without regaining consciousness.

However, a pediatrician at the hospital said it did not appear that a spider bite caused the youngster's death.

It was not until several days after the reported bite that the brown recluse spider was suspected as the cause of Todd's ailment. Anti-venom serum for such a bite was flown here from Sao Paulo, Brazil, April 24, but doctors said at that time so much time had elapsed they feared the serum might not do much good.

A few days after the serum was administered, Todd's condition worsened seriously, and he was placed on a respirator to help his breathing.

His condition continued to deteriorate until his death.

# After 20 Years, Civil Defense Program Still Bare-Bones

By DICK BARNES  
Associated Press Writer  
WASHINGTON (AP) — After two decades of planning and \$1.6 billion in spending, the basic U.S. civil defense program is but a bare-bones string of fallout shelters.

If there were a nuclear attack today, millions of Americans would react by looking for one of these shelters. Finding one might be tough, though, because 2 out of every 5 don't have signs.

Those who did find a shelter would face 50-50 odds that it would be bare of civil defense provisions. Half the shelters have not been stocked with food and water.

There could be other difficulties, too. Managers have not been trained for many shelters. And, although it has financed 73 different shelter occupancy studies, the civil defense agency is yet to produce a handbook giving on-the-job guidance for the untrained.

Problems such as these, revealed by an Associated Press examination of the civil defense program, are due to come under scrutiny in a presidentially ordered study of the government's efforts to minimize American casualties in event of a nuclear war.

Six weeks ago, when President Nixon announced his decision to deploy an antiballistic

missile system, he said he had instructed Gen. George Lincoln, director of the Office of Emergency Preparedness, to make a fresh review of civil defense.

So far, the scope of that review has not been determined. "We hope it will be finished in six months to a year," said an OEP spokesman. "But you know how studies are."

Shelter opponents contend the program is a waste of time and money because nuclear war won't come—and if it did, would be so devastating that civil defense wouldn't make any appreciable difference.

Supporters argue that civil defense activities should be increased now—that the program is an inexpensive way of saving lives in event of enemy attack.

Civil defense officials say their program provides a base for stepped-up training and shelter development should world tensions increase.

They point to their budget which, unlike that of most other government agencies, has declined in recent years. It peaked at \$295 million in 1962, then began a steady descent to a \$60.4 million appropriation for the current year.

The 1962 surge in spending followed the 1961 Berlin crisis and coincided with the Kennedy administration's reorganization of the civil defense program. Since that reorganization, the pro-

gram's emphasis has been on establishing the network of fallout shelters.

The shelters are not special structures. They are simply areas in existing buildings or other facilities, such as tunnels, which offer some protection against radioactive fallout. They are not designed to protect against the blast itself.

Civil Defense Director Joseph Romm says the present shelter program, although "far from complete," could save "up to 15 million lives . . . that would otherwise be lost if an attack were to occur today."

According to civil defense statistics, 195,000 shelters with 185 million spaces have been located. That's almost one space for every American. But only 115,000 facilities with 115.7 million spaces have been formally licensed. And only 110,000 shelters have been marked with the familiar yellow and black fallout signs.

In addition, only 95,000 of the 195,000 shelters have been stocked by civil defense with canned water, nutritional biscuits, and medical and sanitation kits. These would supply 55.8 million people for the 14 days Civil Defense says is a likely length of stay in a shelter. Those 95,000 facilities, however, accommodate 92.7 million people—who could split the supplies and get along for eight days.

These shelters are not distributed in the same proportion as the population. Thus, although about 92 per cent of people supposedly would have a shelter space, it would not work out that way.

In Washington D.C., for example, there are nine times as many shelter spaces as residents. There are four times as many in Boston, three times as many in Pittsburgh and ten times as many in Miami Beach.

Less densely populated areas don't fare as well. In Ohio's smaller cities and rural areas, for instance, the average is only one shelter space for every four people.

Civil defense officials have surveyed home owners and turned up 496,000 houses acceptable as shelters and 8.1 million more which could be made acceptable with modest improvements. However, of the owners of the 8.1 million houses, only 153,000—less than 2 per cent—have written for plans on how to upgrade their protection.

What would happen inside the shelters after an attack has been the subject of research for nearly a decade, including the 73 studies covering 22,000 mandates of volunteer shelter confinement.

Dr. J. O. Buchanan, Civil Defense's deputy assistant director for research, gives a flat "yes" when asked if the research

shows that people could get by in a fallout shelter.

But living in a shelter is no simple task. For example, management of the facilities, most of which hold 3,000 or more persons, is fraught with problems.

Civil defense's "Shelter Management Textbook" stresses pre-crisis training, saying, "should war come, the shelter manager will represent . . . the key to survival for an important segment of the population."

"The survival capability of any shelter can be increased dramatically by plans made and actions taken prior to shelter occupancy," adds the textbook used in teaching the 112,000 persons who, Civil Defense says, have taken the 16-hour shelter manager course.

The program's emphasis on pre-crisis training of shelter managers is questioned by researchers at the University of Georgia who, after a dozen government-financed studies, reported that "community shelter occupants are for the most part capable of self-management, without the benefit of trained management, having but a handbook as an organizational guide."

These researchers have attempted to develop such a handbook. It has gone through numerous revisions but is not yet ready for stocking in shelters. Although one malfunction

knocked out power for one-sixth of the nation's population in the northeast blackout of November 1965, civil defense officials claim electrical power would remain available in most areas even in event of all-out nuclear attack.

Absence of electrical power could seriously strain shelter operations because, one document notes, "such items as illumination and communication equipment . . . are not included in the federal shelter-stocking program."

Woven through much of Civil Defense's justification of the present system is the assumption that hostilities would not break out suddenly—that there would be a build up of tension. In the last major nuclear war scare—the Cuban missile crisis of 1962—events developed within hours.

Although it is an arm of the Defense Department, civil defense in many cases depends on state and local units to carry out its recommendations. Nearly half of its current year budget consists of financial assistance to the states.

With the help of federal funds, many local areas are developing printed instructions to the populace on specifically what to do in event of nuclear attack. These are tailored to the local area and typically include a map of the town's shelter facilities.

ties showing routes and boundaries showing who should go to which shelter.

The goal is to have 3,080 specially detailed plans. So far 165 have been printed.

Beyond its major shelter program, civil defense works on such matters as warning systems and protection of emergency broadcast facilities.

Civil defense personnel often aid in coping with natural disasters like floods, although Buchanan concedes "Natural disasters are not good indicators of what will happen" in a nuclear attack.

Some elements of the civil defense program operate outside that agency. The Public Health Service, for example, oversees 2,500 packaged disaster hospitals worth \$250 million.

Two-thirds of these units have not been rehabilitated since their purchase between 1953 and 1961. All of the drugs in them are now rated as useless.

## Center Of U.S. In South Dakota

MEADES RANCH, Kan. — The weeds grow thick around the small concrete marker set in the ground in the open grassland country in the Kansas heartland. A wandering cow may munch around it and the rare farmer who passes by may give it only a cursory glance.

Yet the concrete marker and the brass plate imbedded in it are unique, for they represent the "Geodetic Center of North America." They mark the beginning reference point for all property lines throughout the U.S., Mexico and Canada and for all city, county, state and international boundaries.

The triangulation station, as it is technically known, is situated at Meades Ranch, in Osborne County, 12 miles north of Lucas, Kan. It was established in 1891 by the U.S. Coast and Geodetic Survey.

Confusion sometimes arises over the significance of the Meades Ranch station, some mistaking it for the geographic center of the United States or North America. It is neither. The geodetic center is not analogous to a geographic center. It is the point from

which all geodetic computations are made for latitude and longitude on North America.

If Meades Ranch is not the geographic center of the United States or North America, then what is it?

Actually, there is no way to determine the exact center of either. But as best as can be determined, the Coast and Geodetic Survey has placed the geographic center of the U.S. at a point 17 miles west of Castle Rock, Butte County, S. D., or latitude 44 degrees 58' North, longitude 103 degrees 46' West, within a 10-mile radius in any direction.

The site is in a desolate area (Castle Rock has a population of 10), but a marker in a roadside park proudly proclaims "Center of the United States."

Prior to the admission of Alaska and Hawaii to the Union, the geographic center of the 48 contiguous states was determined in 1918 by the Coast and Geodetic Survey to be near Lebanon, Kan., at latitude 39 degrees 50' North, longitude 98 degrees 35' West.

When Alaska was admitted to the Union, the geographic center of the 49 states shifted about 439 miles northwest to a point at about 11 miles west of Castle Rock, at approximately 44 degrees 59' North, longitude 103 degrees 38' West.

Later, when Hawaii became the 50th state, the geographical center of the nation was determined as being on the great circle connecting the geographic centers of the 49 states and Hawaii at a point where these areas would "balance."

Including Hawaii had only a small effect on the computations since its area is only about 1-560 of that of the 49 states. The geographic center of the 50 states thus shifted about six miles west-southwest to approximately 17 miles west of Castle Rock, S. D.

The geographic center of the North American continent has been determined by the U.S. Geological Survey to be in Pierce County, N.D., six miles west of Balta, at latitude 48 degrees 10' North, longitude 100 degrees 10' West.

**Y-INDIAN CAMPOUT** — The seven tribes of the Circleville Y-Indian Guides attended a three day campout at Camp Ernst, Burlington, Ky. over the weekend. Swimming was one of the many activities they participated in during the event. Tribes at the campout included: Kickapoo, Iroquois, Shawnee, Cherokee, Mingo, Mo hawk, Wyandot.

## Milwaukee Mostly Calm After Police-Student Clash

MADISON, Wis. (AP) — Hundreds of University of Wisconsin students erected flaming street barricades early today in sympathy with hippies whose attempts to hold a block dance were smashed by police using clubs and irritant gas.

The students poured out of dormitories and fraternity houses following two nights of battle between the hippies and the police and surged into the business area, where for several hours they defied efforts to disperse them.

The weekend of disorder resulted in about 80 arrests. Two of those detained were city aldermen, Paul Soglin and Eugene Parks. Soglin, 24, accused the police of shearing off his long hair before he was freed on bond.

Soglin, a university student known as "the hippie alderman," said he was arrested when he tried to intervene between the police and hippies.

Nearly two hours after midnight, Mayor William Dyke, who toured the troubled areas in a police car, described the city of 175,000 as relatively quiet. But he said he would have to consider ordering a curfew to try to head off any further outbursts.

The trouble began Saturday when police began breaking up barricades erected by residents of a Mifflin Street hippie dance several blocks from the University of Wisconsin campus. The police said the dance would block traffic.

Police, having been pelted with occasional eggs and empty soft drink cans during an hour-long standoff, threatened to use gas to disperse the group. The

announcement was greeted by a storm of rocks, bricks and bottles.

Police waded in, nightsticks flailing, and began making arrests. Some officers threw bricks back at the crowd. When police moved back, and the gas blew away, hippies quickly rebuilt their barricades.

A Sunday peace was shattered when officers waded into an afternoon gathering of about 300 young residents of the Mifflin Street neighborhood. Arrests resumed, most for unlawful assembly.

Authorities again used the irritant gas which they called "pepper gas."

## Sowle Gives Policy Talk

ATHENS, Ohio (AP) — Programs to move Negroes into the mainstream of American life should be developed "on a crash basis if necessary," the next president of Ohio University told students Sunday.

Claude R. Sowle, who will become president Aug. 1, told students that "universities have a distinct obligation to promote widespread educational opportunities for black people."

The 40-year-old Sowle currently is dean of the school of law at the University of Cincinnati.

Speaking on disruptive campus demonstrations, Sowle said "A university has no alternative but to use any and all resources necessary to keep functioning in its responsibility of educating students."

"Students have the right to have a vital say in the operation of a university and, if need be, to conduct peaceful demonstrations to underscore that right."

## Pre-School Clinic Slated In New Holland

The pre-school clinic for New Holland students will be held 9:30 a.m. Thursday at the grade school. The child must be six years old by September 30, to register.

Prospective students must present a birth certificate or copy and a complete record of immunizations.

Registration will be from 9:30 a.m. to 10 a.m. Physical checkups by nurses will follow registration.

Jean R. Creamer, school principal, and teachers will talk on school policies and procedures and urge all parents to attend.

This is the only registration to be held before school starts in September.

**TRACKMAN** — Dave Hopkins, Circleville High School's 440-yard dash man, is the trackman of the week. Hopkins was clocked in 52.8 at the Chillicothe Invitational last week, his best time of the year. Hopkins is also a member of the Tiger mile relay team.

## Charlie Brown Wins Feature At Local Track

Charlie Brown of Circleville captured the 20-lap feature at Salt Creek Valley Speedway Saturday.

It was the first feature victory for the popular driver, who has been plagued with hard luck during his racing career.

The lead changed hands several times before Brown took command near the end of the race. A one-car crash marred the feature.

Roger French, Chillicothe, spun out in the feature, slamming into one of the light poles in the infield. His car flipped over.

**TAKEN** to Berger Hospital, French was treated for minor injuries and released.

Chico Coleman, another Circleville product, was the fastest qualifier in the race.

Heat winners were Don Hayes of Londonderry, Roger French, Chillicothe; Don Hinton, Laurelville. Dick French of Chillicothe won the consolation event.

## Central State Wins NAIA Track Meet

PINDLAY, Ohio (AP)—Calvin Williams won two events Saturday in leading Central State to victory in the NAIA District 22 track meet. The victory gave Central State a berth in the NAIA national tournament.

Williams won the mile in 4:20.5 and the three-mile in 15:23.5 as Central State rolled up 65 points.

Findlay finished second with 50 points, followed by Bluffton 48½, Ohio Northern 32, Defiance 25½, Wilmington 19, Cedarville 12, Malone 10, and Wilberforce 9.

Richmond, which had won the first game 2-1, collected its run—uncared—off Lopez on a walk, an error and a sacrifice fly in the last inning.

In other IL action Sunday, Buffalo whipped Tidewater 5-3; Louisville downed Toledo 7-3; and Syracuse belted Columbus 6-2.

## Wins Grand Prix

MEMPHIS, Tenn. (AP)—Dave Dooley of Tulsa, Okla., piloting a 50-horsepower Corvette, captured the first Cotton Carnival Grand Prix 100-mile sports car race at Shelby County International Raceway before a crowd of 21,275 Sunday.

# Royals, Oliver Smash California Angels, 15-1

By DICK COUCH  
Associated Press Sports Writer

Five of a kind will take the pot in most wild poker games, but in nine innings of baseball it's hard to top Bob Oliver's six-card Royal flush.

Oliver, a muscular Kansas City rookie, cracked a home run, a double and four singles in six trips to the plate Sunday as

the Royals obliterated the California Angels 15-1.

The 6-foot-2, 215-pound outfielder, who got credit for his sixth hit via a post-game scoring change, became the 20th player in American League history—and the first in seven years—to collect half a dozen in a nine-inning contest.

While the Royals were crush-

ing California with a 19-hit, three-homer barrage, the AL's hottest clubs—Minnesota, Washington and Baltimore—kept rolling in high gear and Oakland pitcher John "Blue Moon" Odom went on an RBI rampage against the Seattle Pilots.

The Twins edged the Chicago White Sox 4-3 for their eighth consecutive victory; the Senators nipped Cleveland 4-3 for their 10th in 11 starts and the Orioles completed a four-game sweep at New York by pasting the Yankees 5-3 and 14-2 in a doubleheader.

Odom drove in six runs with a homer and double, and also beat out an infield hit, powering the Athletics past Seattle 11-7 after the Pilots took the doubleheader opener 6-4.

Rico Petrocelli's two-run homer in the 11th inning gave Boston a 4-2 victory over Detroit.

The Royals battered six California pitchers—and Oliver hit safely against each of them—in the biggest offensive splurge of their brief lifetime. The onslaught backed the four-hit pitching of Roger Nelson, who coasted to his second victory in four decisions.

Oliver, who went into the game batting .220 and came out with a .304 mark, got started with a second inning single off loser Clyde Wright. He doubled off Eddie Fisher in the fourth and greeted Pedro Borbon with his third homer, a two-run blast, as the Royals exploded for five runs in the fifth for a 7-0 lead.

They led 9-0 when Oliver opened the seventh with a single off Phil Ortega. Nine batters and five runs later, he came up again against George Brunet and rolled to third baseman Aurelio Rodriguez, who threw into

the dirt at first as another run scored.

Rodriguez was charged with an error and Oliver, who singled in the ninth against Tom Murphy, went into the clubhouse to celebrate a 5-for-5 day. But the official scorer later reversed himself and credited the 26-year-old former Minnesota farmhand with a hit and an RBI on the egrunder to Rodriguez.

Floyd Robinson, who slugged six hits for the White Sox in 1962, was the last American League player to turn the trick. The feat has been accomplished by 18 National League players since 1900, the last of them Jesus Alou of San Francisco in 1964.

Wilbert Robinson of the 1992 Baltimore Orioles in the National League is the only man ever to stroke seven in a nine-inning game.

## OSU Gridders Show Depth, Power In Final Practice

COLUMBUS, Ohio (AP)—The Red team bombed the Whites 62-0 Saturday as Ohio State closed its spring football practice with a show of power.

The Buckeyes, boasting an abundance of talented backs, unleashed most of them in the annual intrasquad game before an estimated 2,000 fans at Ohio Stadium.

Freshman Don Lamka, a

much heralded frosh prospect who was expected to be used as a linebacker, controlled the reigns of the Buckeye attack. Injuries have forced Rex Kern and Ron Maciejowski to the sidelines.

"Lamka did a helluva job," Coach Woody Hayes said after the game. "He didn't make a single big mistake and moved the club real well. He's sort of indestructible."

The Cleveland South neophyte was outstanding, emulating the play of both Kern and Maciejowski as a scrambling quarterback.

He completed 12 of 23 passes for 173 yards, had only one toss intercepted and rushed 69 yards in 10 carries, including one nine-yard scamper for a touchdown.

"He got a late start and his passing needs work," said Hayes. "But he's a real competitor and could be in our starting game."

The Reds, representing Ohio's first string offensive and defensive units, outclassed the No. 2 Whites both ways.

Fullback John Brockington scored two touchdowns on runs of three and eight yards while the other TDs were registered by seven other players.

"It's obvious we have more depth than we've had but whether we have more speed is something I can't say," noted Hayes.

Tom Campana, another rookie, and Mike Sensibaugh, last year's stalwart safetyman who played the entire game at quarterback for the Whites, also earned high praise.

Campana picked up 14 yards in five attempts with the Whites and then came back with 42 yards in eight tries with the Reds.

Sensibaugh, with little experience at the signal calling spot, only completed four of 16 passes for 54 yards and had four passes intercepted. He also scrambled for 73 yards but lost 39 trying to pass and finished with a net of 34 yards rushing.

## Mark Donohue Set For Indy

INDIANAPOLIS, Ind. (AP) — "He's all right."

This evaluation of auto race driver Mark Donohue by veteran Jimmy McElreath is the equivalent to a 21-gun salute in his speed business.

McElreath, a Texan noted for wasting few words, was one of the official observers Saturday when Donohue, of Media, Pa., became the first driver this year to pass the 100-mile test required of all newcomers to the Indianapolis Motor Speedway.

Donohue now is eligible to try

to qualify for the 53rd 500-mile race May 30 in the 10-mile time trials starting May 17. The consensus around gasoline alley is that he's a cinch to qualify and definitely a potential winner.

Calling Donohue a "rookie" is about as silly a term as it was when world champion Graham Hill won the 500 as a newcomer in 1966. He has been U.S. Road Racing champion the last two years. He won the Trans-Am Sedan championship last year. He and Chuck Parsons won the 24-hour Daytona Race this year.

The Sports Car Club of America named Donohue "driver of the year" in 1965. He has been the highest placing American driver the last two years in the Can-Am series for cars with monster 7 liter engines.

An Indianapolis motor speedway publicist, trying to pry biographical material out of the quite Donohue, ended up with about three sentences.

"I don't like to blow my own horn," the baby-faced, crewcut driver said.

## Hinson Wins New Orleans Open Tourney

NEW ORLEANS (AP) — Folks back in Georgia's Coffee County didn't think Larry Hinson would ever amount to much on the pro golf trail. But look at him today.

The 24-year-old Hinson, on the tour exactly a year, beat spectacled Frank Beard on the third hole of sudden death Sunday to capture the \$20,000 first prize in the \$100,000 Greater New Orleans Open.

They had finished 72 holes over the lush Lakewood Country Club course with 275s—12 under par.

"Everyone back home just thought I'd never make it because I didn't make good in my studies—a C average going through college—and they said, 'He's not bright and he can't knock the ball far enough and his handicap will probably keep him out,'" said Hinson.

Hinson's handicap is a left arm weakened by a bout with polio when he was five years old. But he has proven he can play with the best.

Hinson, who shot a closing round 67, started the final round five strokes behind Beard and Dave Hill.

Beard, who finished regulation play Sunday with a 72, earned \$11,200.

Hill slipped to a 73 and a three way tie for third at 276 with Bobby Mitchell, who had a 67, and Joel Goldstrand, who shot 70. Each won \$5,300.

This was Hinson's first tour victory, his previous best was a second place at Hattiesburg, Miss. The big paycheck here boosted his winnings for the year to slightly over \$31,000.

## Phils, Reds Show Power

By MURRAY CHASS

Associated Press Sports Writer

Tony Cloninger came back. Roy Face came back. Even Rich Allen came back.

But even though Allen was \$1,000 poorer when he came back to the Philadelphia line-up, he wasn't minus any of his hitting prowess.

The controversial slugger, who was fined \$1,000 for missing the previous two games without permission, drove in two runs as the Phillies whipped sagging St. Louis 5-2 Sunday.

Cloninger, meanwhile, bounced back in Cincinnati's second game, 12-0 decision over San Diego, pitching a masterful two-hitter just about 24 hours after he failed to get a Padre out in the first inning. The Reds also won the opener 3-2.

Face, 41-year-old veteran who was out of work last month until Montreal took a chance on him, relieved for the fourth time in the past week and gained his second victory against no defeats in the Expos' 6-4 victory over Pittsburgh.

In other National League games, Atlanta downed Los Angeles 4-1, Houston tripped San Francisco 3-1 and the New York Mets took the Chicago Cubs twice by 3-2 scores.

Allen's latest troubles started Friday when he missed two planes from Philadelphia to St. Louis and thus the Phillies' night game with the Cardinals. He didn't make it in time for Saturday's game either, showing up an hour after it started.

He was there and in the line-up for Sunday's contest, though, and responded by driving in runs with a double in the third inning and a sacrifice fly in the sixth as the Phillies completed a sweep of the three-game series.

"We had a great weekend, we won three games and Richie Allen came back and had a great day," beamed Phils Manager Bob Skinner, carefully skirting any mention of the AWOL incident.

Cloninger started for Cincinnati against San Diego Saturday but was battered for five runs in the first inning.

However, Manager Dave Bristol came back with the right-hander in the second game of Sunday's doubleheader, and Cloninger responded by holding the Padres hitless after the second inning.

The pitcher also contributed a homer and a single to the Reds' 11-hit attack as he picked up his first victory against four losses. The Reds won the opener behind run-scoring hits by Tommy Helms in the fourth and Johnny Bench in the sixth.

In Montreal, Face came in to pitch in the eighth inning, shut off a Pirate rally and then held his former team in the ninth after the Expos rallied for three runs in the last of the eighth.

John Boccabella doubled home two runs and scored the third on a throwing error by

catcher Manny Sanguillen. Atlanta completed a sweep of its three-game series with Los Angeles with the help of a wild throw by Wes Parker. The first baseman tossed away a relay throw, enabling two Braves to score in the fourth.

Houston pulled off a National League record seven double plays in defeating Juan Marichal and San Francisco. Doug Rader scored two of the Astros' three runs after tripling and doubling.

Ron Swoboda drove in the winning run in the opener and scored the winner in the nightcap as the Mets surprised the high-flying Cubs.

In the opener, Swoboda's sacrifice fly capped a two-run rally that put New York ahead to stay. In the second game, Swoboda raced home from second on Dick Selma's wild pitch in the seventh. Tom Seaver and Tug McGraw each scattered nine hits in halting Chicago.

## Lopez Fires No-Hitter In IL Tilt

By THE ASSOCIATED PRESS

Marcelino Lopez, Rochester's Cuban left-hander who's trying to win his way back to the majors, didn't feel he was "right" at Richmond Sunday.

Richmond third baseman Jack Crist shared this opinion. "I pitch better in other games," said Lopez, who has had arm trouble. "I've had better stuff. I just try to win."

"I watched him throwing from the bench," said Crist. "I thought, 'Ah, he's not so tough.' When I got up there, it was different."

And so it was, for as Rochester won the second game of an international League twin bill from the Braves, 2-1, Lopez turned out to be "right" enough to pitch a seven-inning no-hitter—the IL's first of the season.

Richmond, which had won the first game 2-1, collected its run—unearned—off Lopez on a walk, an error and a sacrifice fly in the last inning.

In other IL action Sunday, Buffalo whipped Tidewater 5-3; Louisville downed Toledo 7-3; and Syracuse belted Columbus 6-2.

## Charlie Brown Wins Feature At Local Track

Charlie Brown of Circleville captured the 20-lap feature at Salt Creek Valley Speedway Saturday.

It was the first feature victory for the popular driver, who has been plagued with hard luck during his racing career.

The lead changed hands several times before Brown took command near the end of the race. A one-car crackup marred the feature.

Roger French, Chillicothe, spun out in the feature, slamming into one of the light poles in the infield. His car flipped over.

\*\*\*  
TAKEN to Berger Hospital, French was treated for minor injuries and released.

Chico Coleman, another Circleville product, was the fastest qualifier in the race.

Heat winners were Don Hayes of Londonderry, Roger French, Chillicothe; Don Hinton, Laurelville. Dick French of Chillicothe won the consolation event.

## Central State Wins NAIA Track Meet

FINDLAY, Ohio (AP) — Calvin Williams won two events Saturday in leading Central State to victory in the NAIA District 22 track meet. The victory gave Central State a berth in the NAIA national tournament.

Williams won the mile in 4:20.5 and the three-mile in 15:23.5 as Central State rolled up 65 points.

Findlay finished second with 50 points, followed by Bluffton 48½, Ohio Northern 32, Defiance 25½, Wilmington 19, Cedarville 12, Malone 10, and Wilberforce 9.

## Royals, Oliver Smash California Angels, 15-1

By DICK COUCH

Associated Press Sports Writer

Five of a kind will take the pot in most wild poker games, but in nine innings of baseball it's hard to top Bob Oliver's six-card Royal flush.

Oliver, a muscular Kansas City rookie, cracked a home run, a double and four singles in six trips to the plate Sunday as the Royals obliterated the California Angels 15-1.

The 6-foot-2, 215-pound outfielder, who got credit for his sixth hit via a post-game scoring change, became the 20th player in American League history—and the first in seven years—to collect half a dozen in a nine-inning contest.

While the Royals were crushing California with a 19-hit, three-homer barrage, the AL's hottest clubs—Minnesota, Washington and Baltimore—kept rolling in high gear and Oakland pitcher John "Blue Moon" Odom went on an RBI rampage against the Seattle Pilots.

The Twins edged the Chicago White Sox 4-3 for their eighth consecutive victory; the Senators nipped Cleveland 4-3 for their 10th in 11 starts and the Orioles completed a four-game sweep at New York by pasting the Yankees 5-3 and 14-2 in a doubleheader.

Odom drove in six runs with a homer and double, and also beat out an infield hit, powering the Athletics past Seattle 11-7 after the Pilots took the doubleheader opener 6-4.

Rico Petrocelli's two-run homer in the 11th inning gave Boston a 4-2 victory over Detroit.

Mike Vaughan started with a 46 on the first nine and carded a 41 on the second nine for a total of 87. He scored two points from Dan Hunter of Wilmington, who shot a 43-45—88 and three points from Limes of Hillsboro, who had a 48-46—94.

Greg Heiskell, the Tigers' fifth man, carded a 47-43—90. His opponent, Lumpkin, shot a 50-43—93. Heiskell scored 2½ points for the Tigers.

Circleville now has a record of 13 wins, five losses and two ties.

MIKE Young carded a 42-47—89, good for one-half point over

Stanton of Wilmington and 1½ over Jim Gandes of Hillsboro.

Mike Ayers shot a 44-42—86 for the Tigers. He scored three points from both of his opponents, McNeil of Wilmington, who had a 49-43—92, and Morris of Hillsboro, who had a 45-50—95.

The five man Tiger team toured the 18 holes in 434 strokes. Wilmington had a team total of 438. Hillsboro brought only four men and had a total of 365.

Billy Adkins was Circleville's medalist, but Chuck Fazio of Wilmington was the medalist for the match.

Fazio carded a 38-39—77, five strokes over par. Adkins went out in 43, dropped to a 39 on the back nine for a total of 82. He earned one-half a point from Fazio and two from Jeff Hern of Hillsboro.

Associated Press Sports Writer

Five of a kind will take the pot in most wild poker games, but in nine innings of baseball it's hard to top Bob Oliver's six-card Royal flush.

Oliver, a muscular Kansas City rookie, cracked a home run, a double and four singles in six trips to the plate Sunday as the Royals obliterated the California Angels 15-1.

The 6-foot-2, 215-pound outfielder, who got credit for his sixth hit via a post-game scoring change, became the 20th player in American League history—and the first in seven years—to collect half a dozen in a nine-inning contest.

While the Royals were crushing California with a 19-hit, three-homer barrage, the AL's hottest clubs—Minnesota, Washington and Baltimore—kept rolling in high gear and Oakland pitcher John "Blue Moon" Odom went on an RBI rampage against the Seattle Pilots.

The Twins edged the Chicago White Sox 4-3 for their eighth consecutive victory; the Senators nipped Cleveland 4-3 for their 10th in 11 starts and the Orioles completed a four-game sweep at New York by pasting the Yankees 5-3 and 14-2 in a doubleheader.

Odom drove in six runs with a homer and double, and also beat out an infield hit, powering the Athletics past Seattle 11-7 after the Pilots took the doubleheader opener 6-4.

Rico Petrocelli's two-run homer in the 11th inning gave Boston a 4-2 victory over Detroit.

Mike Vaughan started with a 46 on the first nine and carded a 41 on the second nine for a total of 87. He scored two points from Dan Hunter of Wilmington, who shot a 43-45—88 and three points from Limes of Hillsboro, who had a 48-46—94.

Greg Heiskell, the Tigers' fifth man, carded a 47-43—90. His opponent, Lumpkin, shot a 50-43—93. Heiskell scored 2½ points for the Tigers.

Circleville now has a record of 13 wins, five losses and two ties.

MIKE Young carded a 42-47—89, good for one-half point over

Stanton of Wilmington and 1½ over Jim Gandes of Hillsboro.

Mike Ayers shot a 44-42—86 for the Tigers. He scored three points from both of his opponents, McNeil of Wilmington, who had a 49-43—92, and Morris of Hillsboro, who had a 45-50—95.

The five man Tiger team toured the 18 holes in 434 strokes. Wilmington had a team total of 438. Hillsboro brought only four men and had a total of 365.

Billy Adkins was Circleville's medalist, but Chuck Fazio of Wilmington was the medalist for the match.

Fazio carded a 38-39—77, five strokes over par. Adkins went out in 43, dropped to a 39 on the back nine for a total of 82. He earned one-half a point from Fazio and two from Jeff Hern of Hillsboro.

## Majestic Prince Derby Win Brings Usual 2nd-Guessing

LOUISVILLE, Ky. (AP) — They run the Kentucky Derby in just a fraction more than two minutes, but the fans spend weeks, months and years pondering its outcome and arguing what might have been.

Does Majestic Prince's victory in Saturday's 95th running prove he is the "super horse" he was touted to be?

Would Arts and Letters have beaten the Prince if Bill Shoemaker hadn't been injured? What on earth happened to Top Knight?

If the Derby had been a little longer than its 1 1/2 miles, would the fast closing Dike have colored Majestic Prince?

Trainer Johnny Longden said

the Prince wasn't at his peak for the Derby, but "was two to three lengths the best horse in the race," even though he won by only a neck over Arts and Letters.

Longden predicted Majestic Prince "will be a better horse in the Preakness" May 17, but declined to speculate on the possibility of having the first Triple Crown winner since Citation in 1948.

"I just don't like to look that far ahead," he said.

Longden said he felt it wouldn't have made any difference had Shoemaker been aboard Arts and Letters instead of Braulio Baeza, but Elliott Burch, Arts and Letters' trainer, wasn't so sure.

"Perhaps there could have been a difference, I don't know," Burch said, noting that Shoemaker had ridden the colt before while Baeza was on board for the first time.

"I'm not taking anything away from Baeza when I say that," Burch went on. "He rode a great race and got everything out of the horse."

Ray Metcalf, trainer of Top Knight, a disappointing fifth in the Derby, said Majestic Prince would never beat the Florida Derby winner again and offered to bet \$20,000 to back it up.

"I'm not a betting man,"

**Killed In Crash**

LONG POND, Pa. (AP) — Troy Ruttman Jr. of Dearborn Heights, Mich., was killed Sunday while driving an Indianapolis roadster during a 100-lap race at Pocono International Race Track here, officials said.

The track officials said he was going full throttle when his auto crashed through a metal safety barrier.

No other persons were injured in the accident.

## SPORTS Highlights

GREAT FALLS, Mont. (AP) —

Ed Gordon of Great Falls, participating in the annual Eddie Kralich Day Golf Tournament, birdied the 16th hole Sunday—but it wasn't the time he wanted.

Gordon hit a low-flying red-winged blackbird that was flying across the fairway. Both the ball and the bird fell short of their goal. The bird was beyond help but Gordon managed to salvage par.

LOS ANGELES (AP) — Boston's Sam Jones succinctly sums up the National Basketball Association's championship struggle in seven words: "It all comes down to this one."

The Celtics, who make a habit of winning titles, and the Los Angeles Lakers, who haven't done it yet, tangle in their play-off payoff tonight at 7 p.m. PDT before a national television audience with the local area blacked out.

To the winning club goes \$48,000 from the playoff kitty and to the loser \$32,000.

WEST CHESTER, Ohio (AP) — Larry Dickson, who said he was "just hoping to finish," won the 30-lap U.S. Auto Club sprint feature Sunday at Tri-County Speedway.

Dickson of Marietta, Ohio, claimed a five-car length victory after taking over the lead for good on the 17th lap from Gary Bettenhausen of Tinley Park, Ill. The two dueling until the 24th lap, when Bettenhausen spun out and finished third.

CINCINNATI (AP) — Tony Cloninger's performance Sunday seemed like a flashback to 1965.

Without a victory this year and nothing to do but improve, Cloninger fired a dazzling two-hit shutout as Cincinnati blanked San Diego 12-0, after edging the Padres 3-2 in the opening game of a doubleheader.

"I'm just happy to win," said Cloninger, who led the National League in 1965 with 24 victories for the former Milwaukee Braves.

the race, though, because I tried to pick holes in him and couldn't find any."

## Brinkman Beats Tribe

WASHINGTON (AP) — Wash-

ington's Ed Brinkman used to be kidded about not forgetting his glove at home when he came to the ballpark. Lately the Senators' pitchers are making sure he brings along his bat.

During his eight years in the majors, the 27-year-old Brinkman has a batting average of .210 with .187 and .188 seasons in 1968 and 1967.

Thus far this season, he has not been the automatic out.

Brinkman's key single in the seventh inning Sunday drove Jim French to give Washington a 4-3 victory over the Cleveland Indians for their fifth victory in a row and 10 in the past 11.

Brinkman's hitting .263 this year but has been batting at a .411 clip in the past 10 games.

"This is the best start I ever got off to," Brinkman said.

"I'm usually a late starter. But I had a good spring training and it's carried over."

**Pepperdine Winner Of Tennis Tourney**

LOS ANGELES (AP) — Larry Riggs, son of former Wimbledon champion Bobby Riggs, won the singles title and led Pepperdine to its first West Coast Athletic Conference team tennis championship ever.

Larry, No. 1-seeded on his team, beat teammate Gualberto Escadero 6-4, 10-8 Sunday for the singles crown.

**Wisconsin Winner**

HANOVER, N.H. (AP) — Wisconsin's heavyweight crew pulled in front 250 meters from the finish and edged host Dartmouth for the Cochrane Cup Saturday.

The Badgers were clocked in 5:25.1 and Dartmouth in 5:26.

## Anticipated Drop In Steel Shipments May Be Small

CLEVELAND, Ohio (AP) — Steel's price composite on the No. 1 grade of steelmaking scrap rose 33 cents a gross ton to \$27.

Steel said an anticipated drop-off had begun in automotive industry orders, although it was not severe, and demand was expected to level off seasonally.

In some instance, mostly in specialty steels, the magazine said, May tonnage might exceed April levels. It said some major consumers had not yet placed June delivery orders and structural fabricators and service centers were expected to be buying more actively.

"Steelmakers anticipate first half year 1969 shipments of about 47 million tons, only 10 per cent behind the 52.6 million shipped in the like period last year," the metalworking management weekly reported.

The magazine estimated last week's raw steel production at 2,817,000 net tons, unchanged from the previous week. Steel said production fluctuated narrowly between 2,800,000 net tons and 2,828,000 net tons during April and was expected to continue around that level.

Domestic raw steel output is only 3 per cent below last year's level even though 1968 production was boosted by strike hedge buying, Steel noted.

### Wallet Is Returned After 23 Years

TOLEDO, Ohio (AP) — Mrs. Mayme Kuehn lost her wallet with \$21 in it on her way to collect unemployment compensation 23 years ago. She had just been laid off a wartime factory job.

This week \$21 was mailed to her along with her Social Security card, a 1946 driver's license and pictures of relatives now dead.

The wallet's contents arrived in a plain envelope with an unsigned note saying an old man had found it on the street.

## Minister Follows His Calling By Performing With Circus

GIRARD, Pa. (AP) — Many people like to think of their minister as a religious magician, but the Rev. Donald Brewer really is a magician.

He's also a clown, and can balance swords, poles and a unicycle on his chin. His wife has a dog act, using the four family poodles. Sometimes she flies merrily on the trapeze.

Brewer is pastor of St. John's Lutheran Church in Girard.

He's a circus buff. Last year, during his summer vacation, he and his wife, Melody, and their two daughters, Melody, 4, and Cheri Rose, 1, traveled with the Boas Brothers Circus through

central Pennsylvania. They performed in two shows daily, six days a week—without pay.

"I tried to help," he says, acting sometimes as a sideshow manager and announcer. And doing his balancing act.

While traveling with the circus, and performing, he doesn't neglect his ministry.

"I don't hold services," he says. "My purpose is just to be there, to talk with and counsel those who have a problem, who want to know about God, who may have forgotten religion."

"Circus people long have thought the church looks down on them, and that's wrong. I'm just filling the gap the church left unfilled for a long, long time."

### Taxis Silenced

LONDON (AP) — London's famous upright taxis are going to be silenced, but not in a way the passenger will notice. For years cabbies have complained about the noise in the driving area. Acoustics engineers who checked into the complaints agreed with the drivers and now all new taxis will be fitted with sound-deadening systems.

## Famed Yosemite 'Tunnel Tree' Falls To Ground

YOSEMITE NATIONAL PARK, Calif. (AP) — "This is like having one of your children die..."

It was a eulogy to the ancient sentinel of Yosemite National Park, the Wawona Tunnel Tree, which has fallen. Millions of tourists drove through it.

The words belonged to ranger Lynn Thompson, who said the 2,000-year-old sequoia redwood giant fell from the roots and left a huge hole in the ground.

The 234-foot-tall tree, a sapling in Christ's time and revered for its example as one of nature's oldest living things, apparently fell in early winter but was hidden by snows.

GIRARD, Pa. (AP) — Many people like to think of their minister as a religious magician, but the Rev. Donald Brewer really is a magician.

He's also a clown, and can balance swords, poles and a unicycle on his chin. His wife has a dog act, using the four family poodles. Sometimes she flies merrily on the trapeze.

Brewer is pastor of St. John's Lutheran Church in Girard.

He's a circus buff. Last year, during his summer vacation, he and his wife, Melody, and their two daughters, Melody, 4, and Cheri Rose, 1, traveled with the Boas Brothers Circus through

central Pennsylvania. They performed in two shows daily, six days a week—without pay.

"I tried to help," he says, acting sometimes as a sideshow manager and announcer. And doing his balancing act.

While traveling with the circus, and performing, he doesn't neglect his ministry.

"I don't hold services," he says. "My purpose is just to be there, to talk with and counsel those who have a problem, who want to know about God, who may have forgotten religion."

"Circus people long have thought the church looks down on them, and that's wrong. I'm just filling the gap the church left unfilled for a long, long time."

## Taxis Silenced

LONDON (AP) — London's famous upright taxis are going to be silenced, but not in a way the passenger will notice. For years cabbies have complained about the noise in the driving area. Acoustics engineers who checked into the complaints agreed with the drivers and now all new taxis will be fitted with sound-deadening systems.

## Famed Yosemite 'Tunnel Tree' Falls To Ground

YOSEMITE NATIONAL PARK, Calif. (AP) — "This is like having one of your children die..."

It was a eulogy to the ancient sentinel of Yosemite National Park, the Wawona Tunnel Tree, which has fallen. Millions of tourists drove through it.

The words belonged to ranger Lynn Thompson, who said the 2,000-year-old sequoia redwood giant fell from the roots and left a huge hole in the ground.

The 234-foot-tall tree, a sapling in Christ's time and revered for its example as one of nature's oldest living things, apparently fell in early winter but was hidden by snows.

## Delaware Wants Spacesuit Back

DOVER, Del. (AP) — After the first American has walked on the moon, the Delaware Senate wants the suit he wore to be put on public display in Dover, the city in which it was made.

The Senate unanimously adopted a resolution requesting the President of the United States and the National Aeronautics and Space Administration to consider returning the suit to be publicly displayed here under the auspices of the Delaware Archives Commission.

The suit was manufactured for NASA by ILC Industries Inc. of Dover.

## Indian Pickpockets Have Conscience

NEW DELHI (AP) — New Delhi pickpockets have a pricking conscience, at least in part.

They remove the purse, help themselves to the money and deposit the purse in the nearest post box. With the help of the identity card, the post office has the purses delivered to the owners.
